Psychotherapy for the Treatment of Substance Abuse Marc Galanter, Herbert D. Kleber, 2011 In *Psychotherapy for the Treatment of Substance Abuse* leading authorities on substance abuse treatment techniques review and illustrate the most common interventions for opioid related and alcohol related

substance abuse disorders as well as crucial methodologies for testing and patient placement. Methods reviewed include self help fellowships such as Alcoholics Anonymous, cognitive behavioral and psychodynamic treatments, motivational enhancement group and family therapy, contingency management and the multimodal approach called Network Therapy which recruits the support of friends and family to prompt abstinence and prevent relapse. Each chapter includes vivid case studies to illustrate the approach described as well as a review of the key clinical concepts and a list of essential readings.

Adapting a new clinically focused manual from their popular American Psychiatric Publishing Textbook of Substance Abuse Treatment now in its fourth edition, Dr Galanter and Dr Kleber have designed *Psychotherapy for the Treatment of Substance Abuse* to be of practical application to both experienced clinicians and those new to the field. The accompanying DVD demonstrates Network Therapy in practice and includes enlightening commentary on key issues that are relevant across the many modalities of substance abuse treatment discussed in the book. *Lowinson and Ruiz's Substance Abuse* Pedro Ruiz, Eric C. Strain, 2011. A comprehensive authoritative text on all aspects of substance abuse and addiction medicine. Scientific topics such as the biology of various addictions and all dimensions of clinical treatment and management are addressed by a wide range of leading contributors. Behavioral addictions are addressed also so the text is not solely devoted to specific substances and their misuse. Provided by publisher.
