Red Blood Yellow Skin:

Red Blood, Yellow Skin Linda L.T. Baer, 2015-06-02 WINNER OF THE NORTH STREET BOOK PRIZE COMPETITION
Red Blood Yellow Skin is the story of a young girl's survival in war-torn Vietnam during the First Indochina War between France and Vietnam, the civil war between North and South Vietnam, and the later American involvement in the Vietnam War. Linda Baer was born Nguyen Thi Loan in the village of Tao Xa Thai Binh Province in North Vietnam in 1947. When she was four years old, the Viet Minh attacked her village and killed her father, leaving Loan and her mother to fend for themselves. Seeking escape from impoverishment, her mother married a rich and dominating widower who was cruel to his free-spirited and mischievous stepdaughter. Loan found solace in the company of animals and insects and escaped into the branches of trees. In 1954, her family chose to relocate to South Vietnam rather than live under the yoke of communist North Vietnam. When Loan was thirteen, she ran away to Saigon to flee the cruelty of her stepfather and worked at menial jobs to help her family. At seventeen, she was introduced to bars, nightclubs, and Saigon Tea. At eighteen, she dated and lived with a young American airman. Two months after their baby was born, the airman returned to America, and Loan never heard from him again. She raised their son by herself. However, time healed her heart, and she eventually found true love in a young air force officer whom she married and accompanied to America in 1971. Red Blood Yellow Skin is a story of romance, culture, traditions, and family. It describes the pain, struggle, despair, and violence as Loan lived it. The story is hers, but it is also an account of Vietnam of those who were uprooted, displaced, brutalized, and left homeless. It is about this struggle to survive and her extraordinary triumph over adversity that Baer writes. Linda Baer was born Nguyen Thi Loan in a small village in North Vietnam. Her family relocated to South Vietnam in 1954. She spent most of her youth in Saigon, where she met her husband. She followed him to America in 1971 and became an American citizen in 1973. She currently resides in Charleston, South Carolina, where she is a successful businesswoman.

Pride Aside and Other Poems F. Ndi, 2016-01-29 Pride Aside and Other Poems rattles the brain as it blurs thematic boundaries Even though Bill F Ndi's poems seem to clearly draw inspiration from everyday life almost all the poems are structured as sonnets Through the lines of the various poems in this collection influences of poets from different schools of poetic creativity and streams of inspiration resonate They bring to mind the metaphysical poets the Romantics the Symbolists the Confessionalists poets of the Beat Generation Committed poetry etc As such reading the collection places the reader before a multifaceted and intriguing cultural document imbued with literary influences from Chaucer to W B Yeats and beyond However their insight and the richness of their humanity transform the poems essentially into meditations on the soul of our civilization This poetic work is vibrant and thought provoking

Human Ecology - Biology and Cultural Dimensions Mr. Rohit Manglik,2023-11-23 Human ecology with biological and cultural focus Includes environmental interactions adaptations and sustainability key for anthropological studies **An Introduction to Form and Feathering of the Domestic Fowl** Brian Reeder,2011-05-05 In this introduction to the genetics of form and feathering of the domestic fowl you will find a straightforward method that allows anyone beginner or advanced hobbyist to understand how the major genes of form and feathering come together to create the silhouette that is the hallmark of each breed Beginning with a discussion of the skeleton genes then moving to muscling genes feathering genes

and finally to combine genes an understanding of the layers that make the silhouette is revealed From this system of understanding how the silhouette is formed one can then understand what really makes one breed unique from another All of the genes presented herein are found in the commonly seen exhibition breeds and many hobbyists will be familiar with these breeds but may be less familiar with the genetic factors involved This volume is a wonderful tool for learning the basis of how the breeds are made how their respective forms are derived from separate genes of form and feathering and how those genes all come together to make the one visual impression that we consider a breed There is in fact no one single gene which makes the form of any given breed Many genes are required to derive each type and the combination of those many genes creates the silhouette As you will see from the many silhouette illustrations in this book once you know a breed it is instantly recognizable from its silhouette alone In addition to the discussion of the genes there is a discussion of basic genetic concepts and of the complex and often confusing method of quantitative selection that is very applicable to many of the genes described herein This book presents a very clear system for learning about the genetics of form and feathering in the domestic fowl and is written to be understood by the young and beginners alike
