The SAGE Encyclopedia of Cancer and Society Graham A. Colditz, 2015-08-12 The first edition of the *Encyclopedia of Cancer and Society* was published in 2007 and received a 2008 Editors Choice Award from Booklist It served as a general non technical resource focusing on cancer from the perspective of the social and behavioral sciences exploring social and economic impacts the business of cancer advertising of drugs and treatment centers how behavior change could offer great potential for cancer prevention environmental risks food additives and regulation the relation between race and ethnicity and cancer risk socioeconomic status controversies both scientific and political in cancer treatment and research country by country entries on cancer around the world and more Given various developments in the field including new drug treatments political controversies over use of the vaccines Gardasil and Cervarix with young girls to prevent cervical cancer and unexpected upticks in the prevalence of adult smoking within the U S following decades of decline the *SAGE Encyclopedia of Cancer and Society Second Edition* serves as an updated and more current encyclopedia that addresses concerns pertaining to this topic Key Features Approximately half of the 700 first edition articles revised and updated 30 new entries covering new developments since 2006 Signed entries with cross references Further Readings accompanied by pedagogical elements New Reader's Guide Updated Chronology Resource Guide Glossary and through new Index The *SAGE Encyclopedia of Cancer and Society Second Edition* serves as a reliable and precise source for students and researchers with an interest in social and behavioral sciences and seeks to better understand the continuously evolving subject matter of cancer and society

Technology-Driven Business Innovation Rim El Khoury, 2024-03-23 This book aims to provide a comprehensive understanding of the interplay between technology and business and its implications for future growth and innovation In

today's rapidly changing world technology plays a crucial role in shaping the business landscape. Advancements in artificial intelligence, blockchain, data analytics, and automation have revolutionized how organizations operate, compete, and achieve success. Understanding the profound impact of technology on business is vital for entrepreneurs, managers, policymakers, and academics alike. This book aims to explore the connection between technology and business, highlighting its importance in driving transformative changes across various industries. We welcome scholars, researchers, and practitioners to share their expertise and insights in this exciting endeavor. This book captures the essence of exploring the dynamic relationship between technology and business, emphasizing the potential for innovation and growth. It conveys the idea of embracing the transformative power of technology within the business realm and the opportunities it presents for unleashing new ideas and strategies. By delving into various aspects such as emerging technologies, business strategies, innovation, and ethical considerations, it aims to provide a comprehensive understanding of the symbiotic relationship between technology and business. It offers insights into the integration of technology into decision-making processes, the transformative impact on different industries, and strategies for leveraging technology to drive organizational growth and sustainability. Furthermore, the book highlights real-world case studies, explores emerging trends, and discusses the ethical and social implications of technology adoption in the business context. It serves as a valuable resource for entrepreneurs, managers, policymakers, academics, and anyone interested in understanding and harnessing the potential of technology for business success. This book aims to be a valuable resource for individuals interested in the transformative power of technology in the business realm. By compiling a collection of insightful chapters, it offers readers a diverse range of perspectives, frameworks, and case studies that shed light on the complexities and opportunities associated with technology-driven business environments.

Qualitative Research in Health and Illness Jessica Smartt Gullion, 2024. In *Qualitative Research in Health and Illness*, Dr. Jessica Smartt Gullion leverages two decades of experience as a qualitative methodologist and epidemiologist to provide an in-depth guide on conducting qualitative inquiry in the health fields. The book will begin with an overview of qualitative research and its applications. After laying down the foundation, Gullion guides students through the process of conducting research. Chapters provide detailed coverage on the formation of a research question, the ethics of a project, different data collection techniques such as interviewing, ethnographic research, and medical narratives, and concludes with strategies for analyzing data and documenting findings. Each chapter will include a number of exemplars of real projects and brief interviews with researchers doing relevant work, separated out as boxes, as well as active learning assignments for professors utilizing flipped classroom models. This book will broaden researchers' perspectives on research methodologies and serve as an important resource to engage students in the research process.

Cross-cutting issues in the water, land, energy and food security nexus: Perspectives from sub-Saharan Africa Felix Kwabena Donkor, Mulala Danny Simatele, Henry Bikwibili Tantoh, 2023-06-27

The Palgrave Encyclopedia of Urban and Regional Futures Robert C. Brears, 2023-01-13. While

urban settlements are the drivers of the global economy and centres of learning culture and innovation and nations rely on competitive dynamic regions for their economic social and environmental objectives urban centres and regions face a myriad of challenges that impact the ways in which people live and work create wealth and interact and connect with places Rapid urbanisation is resulting in urban sprawl rising emissions urban poverty and high unemployment rates housing affordability issues lack of urban investment low urban financial and governance capacities rising inequality and urban crimes environmental degradation increasing vulnerability to natural disasters and so forth At the regional level low employment low wage growth scarce financial resources climate change waste and pollution and rising urban peri urban competition etc are impacting the ability of regions to meet socio economic development goals while protecting biodiversity The response to these challenges has typically been the application of inadequate or piecemeal solutions often as a result of fragmented decision making and competing priorities with numerous economic environmental and social consequences In response there is a growing movement towards viewing cities and regions as complex and sociotechnical in nature with people and communities interacting with one another and with objects such as roads buildings transport links etc within a range of urban and regional settings or contexts This comprehensive MRW will provide readers with expert interdisciplinary knowledge on how urban centres and regions in locations of varying climates lifestyles income levels and stages development are creating synergies and reducing trade offs in the development of resilient resource efficient environmentally friendly liveable socially equitable integrated and technology enabled centres and regions *Forthcoming Books* Rose Army,1992-10
