Reacutegulation Et Eacutevaluation Des Compeacutetences En Enseignement:

Les Compétences professionnelles en enseignement et leur évaluation Louise Bélair, Dany Laveault, Christine Lebel, 2007-06-12 Ce livre a pour but d'examiner la question de l'évaluation des compétences professionnelles en mettant profit les connaissances théoriques et pratiques acquises par les intervenants et les chercheurs spécialisés dans la formation des enseignants et l'évaluation des compétences. Les spécialistes qui ont contribué à ce volume envisagent le problème de l'évaluation des compétences sous différents points de vue, toujours en tenant compte de trois aspects essentiels de l'évaluation d'une profession : 1 le champ de l'évaluation professionnelle 2 le contexte de l'évaluation professionnelle 3 les modes d'évaluation et la nécessité d'établir leur validité. Le fruit d'une collaboration des chercheurs et des enseignants d'établissements universitaires collégiaux et secondaires, cet ouvrage vise à terminer la manœuvre dont peut se faire l'évaluation des compétences professionnelles tant donné la professionnalisation des enseignants au Québec et ailleurs. Publié en français. **Développement des compétences de l'enseignant de niveau universitaire** Nancy Brassard, 2016 **Autoévaluation en formation à distance** Jean-Marc Nolla, Ghislain Samson, France Lafleur, 2022-05-17 T00:00:00-04:00 Cet ouvrage rassemble des textes montrant pourquoi et comment évaluer autrement avec le numérique en formation à distance. Les différentes contributions offrent des pistes et des stratégies concrètes d'évaluation variées. Trois axes y sont abordés : l'autoévaluation des apprentissages en formation, le développement des compétences en formation à distance et les stratégies d'autoévaluation qui y sont associées et la nouvelle culture de l'évaluation en formation à distance et les repères servant à soutenir l'autoévaluation. L'autoévaluation des compétences en contexte Sylvie Gruber Jost, 2018 S'auto-évaluer, c'est porter un regard de valeur sur soi, c'est aussi accepter de montrer quelque chose de soi. Mais pour montrer, qui ? Si le tiers enseignant, parent ou camarade est nécessaire, il est indispensable de s'interroger sur sa fonction et sur son regard. Cette relation questionne la transmission dans l'expérience éducative. Vieille Grosjean, 2009 Si le but de l'enseignant est de rendre l'enfant compétent, Reboul, 1980 quel est le but de l'enfant qui apprend ? Cette étude empirique interroge la pratique de l'autoévaluation des compétences auprès des élèves du primaire. La pratique de l'autoévaluation, condition qu'elle se situe dans le champ de la pédagogie, amène un espace de rencontre entre l'enseignant, l'élève et le savoir. Elle agit comme un révélateur des attendus, des uns et des perceptions des autres et permet à l'élève de tendre vers un apprentissage expansif. Holzkamp, 1993 L'enfant, en prenant conscience de sa responsabilité, peut passer d'un être évalué à un être apprenant. **L'autoévaluation, facteur de transformation des conceptions et des pratiques** Françoise Campanale, 1995 Cette recherche descriptive et modélisatrice utilisant une approche qualitative et clinique explore le rôle que peut jouer l'autoévaluation dans la formation continue des enseignants du secondaire pour favoriser la transformation des conceptions et pratiques de l'évaluation et au-delà, un changement du paradigme pédagogique. La première partie en se référant à une approche complexe de la réalité, fait merger le paradigme de l'évaluation compréhensive dont découlent les stratégies d'évaluation formative, formatrice centrées sur l'autoévaluation des

acteurs du processus enseignement apprentissage Le fonctionnement de l'auto-évaluation dans la transformation des conceptions et la régulation de l'activité est exploré puis modélisé La deuxième partie analyse l'évolution d'un dispositif de formation l'auto-évaluation Les formateurs engagés dans un processus d'auto-évaluation de leurs pratiques ciblent progressivement leurs actions sur l'apprentissage de l'auto-évaluation par les enseignants pour qu'ils puissent provoquer celle des élèves La troisième partie étudie les effets des situations d'auto-évaluation introduites dans une action de formation continue pour une équipe d'enseignants de collège Des analyses transversales et longitudinales de leurs discours montrent des modifications de conceptions de l'auto-évaluation et témoignent de modifications de pratiques pédagogiques Ceux qui changent de paradigme pédagogique sont ceux qui ont délibérément engagé un processus d'auto-évaluation provoquant la transformation de leurs représentations sur leur rôle d'enseignant Ce travail tente d'approfondir les connaissances sur l'auto-évaluation et de fournir aux formateurs des grilles de lecture de leurs actions

Biais d'auto-évaluation de compétence en français et en mathématiques chez les élèves de primaire Ludvine Jamain, 2019 La vision illusoire de soi positive surestimation de soi semble inhérente à la cognition humaine et fluctue dans son intensité en fonction de l'âge et du degré d'abstraction du concept évalué Dans cette thèse nous nous intéressons aux illusions positives mais aussi négatives des perceptions que les enfants âgés de 8-11 ans ont vis-à-vis de leur compétence scolaire Ces illusions sont mesurées à partir de l'écart entre les performances scolaires effectives des élèves d'une part et la perception qu'ils ont de leur compétence scolaire d'autre part Le biais d'auto-évaluation de compétence scolaire locution utilisée pour faire référence à cet écart positif ou négatif a été étudié jusqu'alors en considérant les habiletés générales des élèves à l'école voir Bouffard Pansu Boissicat 2013 Dans cette thèse le biais est abordé au niveau de matières spécifiques le français et les mathématiques L'objectif général est d'appréhender les liens entre les auto-évaluations biaisées de compétence l'adaptation et le succès scolaire des élèves dans ces deux disciplines À un niveau individuel un suivi longitudinal d'élèves de primaire N 677 sur trois années a permis dans une première étude de définir quatre trajectoires développementales du biais d'auto-évaluation trois trajectoires assez stables une positive une modérée et une négative ainsi qu'une quatrième évoluant d'un biais très négatif à un biais relativement modéré Après avoir examiné les liens entre ces trajectoires et un ensemble de mesures liées à l'adaptation scolaire de l'élève nous avons appréhendé dans une seconde étude l'autorégulation et la performance scolaire des élèves en fonction de leur auto-évaluation biaisée La mise en lumière des liens entre le biais d'auto-évaluation l'adaptation et le fonctionnement des élèves a permis de rendre compte du caractère plus ou moins délétère du biais selon qu'il soit positif ou négatif À un niveau interindividuel une troisième étude a porté sur le lien entre le biais d'auto-évaluation de compétence des élèves et le jugement de leur enseignant Enfin une dernière étude a examiné la capacité des enseignants à repérer les auto-évaluations biaisées chez leurs élèves Si les enseignants jugent mieux les élèves surestimant leur compétence les résultats de la dernière étude laissent penser que ce processus est inconscient
