Recommendation Letter Sample For Peer Mentor Guide:

A Guide for Developing a Culture of Caring Through Nursing Peer Mentorship Programs Deborah Kramer, 2024-08-19

This book describes in detail how to develop successful programs of nursing mentorship utilizing concepts of caring that yields a strong caring body of nurses who will be nurse thrivers as they find fulfilment and meaning in their professional commitment and will train others to do the same. The mentorship program is the ticket to success that many students need to complete their degree program, prevent burnout, pass the nursing NCLEX examination and remain in the workforce after graduation. The current attrition rate in baccalaureate nursing programs is 25-50% as is the attrition rate in the first 2 years of employment of new RNs entering the workforce. Burnout is due to a lack of care and support for helping the students navigate the rigor and demands of the nursing program. Creating a community of learners with caring and support creates an environment that fosters academic engagement and success. The unique aspect of this book is its focus on creating a caring environment to support the students, helping them develop caring skills, empathy, resilience, and their own self-care, developing the skills for success beyond their educational process into the workforce. This book integrates all patterns of knowing: personal, aesthetic, empiric, and ethical, and provides the missing link of peer mentorship necessary to the development of resilient, emancipated nursing students and graduates capable of working in community with others to establish cultures of care in health care. This is a must-have resource for transformation of nursing education in the next century. Foreword by Dr. Margaret McClure.

Undergraduate Curricular Peer Mentoring Programs Tania Smith, 2013

Curricular peer mentoring is a programmatic approach to enrich student learning and engagement in postsecondary courses in which instructors welcome a more experienced undergraduate student into a credit course they are teaching. The student then serves as peer mentor to the students enrolled. Peer mentors can provide a variety of peer-appropriate, course-specific mentoring, tutoring, facilitation, and leadership roles and activities that complement the roles of the course's instructor and teaching assistants, both in classroom settings and beyond. A program provides training and ongoing support for a larger number of peer mentors and instructional teams and manages recruitment and program research and quality. This volume provides research findings, definitions, theories, and practical program descriptions as a foundation for program development and research of undergraduate curricular peer mentoring programs in higher education. This work builds on a long history of higher education program development and collects a significant amount of literature that has previously been scattered.

Developing Effective Student Peer Mentoring Programs Peter J. Collier, 2023-07-03. At a time when college completion is a major issue and there is particular concern about the retention of underserved student populations, peer mentoring programs offer one solution to promoting student success. This is a comprehensive resource for creating, refining, and sustaining effective student peer mentoring programs. While providing a blueprint for successfully designing programs for a wide range of audiences from freshmen to doctoral students, it also offers specific guidance on developing programs.

targeting three large groups of under served students first generation students international students and student veterans This guidebook is divided into two main sections The opening section begins by reviewing the issue of degree non completion as well as college adjustment challenges that all students and those in each of the targeted groups face Subsequent chapters in section one explore models of traditional and non traditional student transition persistence and belonging address what peer mentoring can realistically achieve and present a rubric for categorizing college student peer mentoring programs The final chapter in section one provides a detailed framework for assessing students adjustment issues to determine which ones peer mentoring programs can appropriately address Section two of the guidebook shifts from the theoretical to the practical by covering the nuts and bolts of developing a college student peer mentoring program The initial chapter in section two covers a range of design issues including establishing a program timeline developing a budget securing funding getting commitments from stakeholders hiring staff recruiting mentors and mentees and developing policies and procedures Subsequent chapters analyze the strengths and limitations of different program delivery options from paired and group face to face mentoring to their e mentoring equivalents offer guidance on the creation of program content and resources for mentors and mentees and provide mentor training exercises and curricular guidelines Section two concludes by outlining processes for evaluating programs including setting goals collecting appropriate data and methods of analysis and by offering advice on sustaining and institutionalizing programs Each chapter opens with a case study illustrating its principal points This book is primarily intended as a resource for student affairs professionals and program coordinators who are developing new peer mentoring programs or considering refining existing ones It may also serve as a text in courses designed to train future peer mentors and leaders
