Greenhalgh,2010-10-29 Current accounts of China's global rise emphasize economics and politics largely neglecting the cultivation of China's people Susan Greenhalgh one of the foremost authorities on China's one child policy places the governance of population squarely at the heart of China's ascent Focusing on the decade since 2000 and especially 2004-09 she argues that the vital politics of population has been central to the globalizing agenda of the reform state By helping transform China's rural masses into modern workers and citizens by working to strengthen technoscience and legitimize the PRC regime and by boosting China's economic development and comprehensive national power the governance of the population has been critically important to the rise of global China After decades of viewing population as a hindrance to modernization China's leaders are now equating it with human capital and redefining it as a positive factor in the nation's transition to a knowledge based economy In encouraging human development the regime is trying to induce people to become self governing self enterprising persons who will advance their own health education and welfare for the benefit of the nation From an object of coercive restriction by the state population is being refigured as a field of self cultivation by China's people themselves **Reflections on the Liar** Bradley Armour-Garb,2017-06-23 There are a number of people who

do great work in philosophy who have said very little about the Liar paradox The purpose of this volume is to afford those philosophers the opportunity to address what might be described as reflections on the Liar *Secret Body* Jeffrey J. Kripal,2017-11-14 An academic memoir addresses topics as diverse as Hindu Tantra Christian mysticism American counterculture and the history of the paranormal Los Angeles Review of Books Over the course of his twenty five year career Jeffrey J Kripal's study of religion has had two major areas of focus the erotic expression of mystical experience and the rise of the paranormal in American culture This book brings these two halves together in surprising ways through a blend of memoir manifesto and anthology drawing new connections between these two realms of human experience and revealing Kripal's body of work to be a dynamic whole that has the potential to renew and reshape the study of religion Kripal tells his story biographically historically and politically contextualizing each of the six books of his Chicago corpus from *Kali's Child* to *Mutants and Mystics* all the while answering his censors and critics and exploring new implications of his thought In the process he begins to sketch out a speculative new comparativism in twenty theses The result is a new vision for the study of religion one that takes in the best of the past engages with outside critiques from the sciences and the humanities and begins to blaze a new positive path forward A major work decades in the making *Secret Body* will become a landmark in the study of religion Kripal presents us with a compilation of theories cultural references and anecdotes making up an impassioned thesis

about the future of religious studies and what human beings may become For all its eccentricities Kripal's work is playful engaging and original Times Higher Education **Assessment in Science** Maureen McMahon, 2006 If you want to learn about the latest research on assessment techniques that really work the ideal sourcebook is right here in your hands Assessment in Science is a collection of up to date reports by authors who are practicing K-16 classroom teachers and university based educators and researchers
