Nobody Home Writing Buddhism And Living In Places:

Nobody Home Gary Snyder, Julia Martin, 2014-11-11 In this thoughtful affectionate collection of interviews and letters spanning three decades beloved poet Gary Snyder talks with South African writer and scholar Julia Martin Over this period many things changed decisively globally locally and in their personal lives and these changing conditions provide the back story for a long conversation It begins in the early 1980s as an intellectual exchange between an earnest graduate student and a generous distinguished writer and becomes a long distance friendship and an exploration of spiritual practice At the project s heart is Snyder s understanding of Buddhism Again and again the conversations return to an explication of the teachings Snyder s characteristic approach is to articulate a direct experience of Buddhist practice rather than any kind of abstract philosophy In the version he describes here this practice finds expression not primarily as an Asian import or a monastic ideal but in the specificities of a householder s life as lived creatively in a particular location at a particular moment in history This means that whatever topic a dialogue explores there is a sense that all of it is about practice the spiritual social practice of a contemporary poet

Zen Ecology Christopher Ives, 2025-03-11 Discover a way of living that can help you slow down and stay grounded and at the same time reduce your ecological impact and engage more fully with the climate crisis It may seem as though living ecologically and engaging in activism sacrifices our own enjoyment and happiness on the altar of doing the right thing In this book professor naturalist and Buddhist author Christopher Ives offers an alternative a way of living that can actually be more fulfilling than the modern consumerist lifestyle Rather than deprivation it can bring us richness In Zen Ecology Chris outlines his environmental ethic as a series of concentric circles beginning with ourselves and then moving outward into our communities all the while focusing on spaciousness mindfulness generosity and contentment At the individual level we deal with distraction clutter and ecological harm Here Chris offers ways to help us pay attention simplify our lives and lower our impact Then we explore how to envision our home as a place of the Way with Zen monastic life as a model for this without having to be a monk Next we realize our embeddedness in nature and emplace ourselves in community with others including other forms of life Finally we build on this basis to engage in activism to create a world that is more supportive of ecological health and spiritual fulfillment In this way we avoid the two extremes of apathy and burnout and uncover a way of living that is simple joyful embedded in nature connected to others in community and supportive of collective action

Zen Buddhism and the Reality of Suffering Tullio Giraldi, 2024-09-10 This book offers an accessible guide to the role that Zen has played and alongside Buddhism might play in both Eastern and Western attempts to alleviate mental suffering Since its beginnings 2500 years ago the central belief of Buddhism has been that what we perceive as reality is a mental representation a religious belief which has since been substantiated by the evidence of neuroscience The work and progress of clinical medicine psychiatry and psychology have attempted to alleviate the sufferings of life but the current approaches to mental health in psychiatry the neurosciences and cognitivism don t fully address the complexity

and mutual inter relationship of the variety of factors involved in mental suffering and its non linear and chaotic aspects Zen Buddhism on the other hand encourages access to reality and so this book will explore scientifically the ways in which its guiding principles can be deployed to support and enhance Western clinical solutions to mental strife **A Sense of the Whole** Mark Gonnerman, 2015-06-09 In 1997 Mark Gonnerman organized a yearlong research workshop on Gary Snyder's Mountains and Rivers Without End at the Stanford Humanities Center Members of what came to be known among faculty students and diverse community members as the Mountains Rivers Workshop met regularly to read and discuss Snyder's epic poem Here the poem served as a commons that turned the multiversity into a university once again if only for a moment The Workshop invited writers teachers and scholars from Northern California and Japan to speak on various aspects of Snyder's great accomplishment This book captures the excitement of these gatherings and invites readers to enter the poem through essays and talks by David Abram Wendell Berry Carl Bielefeldt Tim Dean Jim Dodge Robert Hass Stephanie Kaza Julia Martin Michael McClure Nanao Sakaki and Katsunori Yamazato It includes an interview with Gary Snyder appendices and other resources for further study Snyder once introduced a reading of this work with reference to whitewater rapids saying most of his writing is like a Class III run where you will do just fine on your own but that Mountains and Rivers is more like Class V if you're going to make it to take out you need a guide As a collection of commentaries and background readings this companion volume enhances each reader's ability to find their way into and through an adventurous and engaging work of art Green Matters, 2019-11-26 Green Matters offers a fascinating insight into the regenerative function of literature with regard to environmental concerns Based on recent developments in ecocriticism the book demonstrates how the aesthetic dimension of literary texts makes them a vital force in the struggle for sustainable futures Applying this understanding to individual works from a number of different thematic fields cultural contexts and literary genres Green Matters presents novel approaches to the manifold ways in which literature can make a difference While the first sections of the book highlight the transnational the focus on Canada in the last section allows a more specific exploration of how themes genres and literary forms develop their own manifestations within a national context Through its unifying ecocultural focus and its variegated approaches the volume is an essential contribution to contemporary environmental humanities Roaming Free Like a Deer Daniel Capper, 2022-03-15 By exploring lived ecological experiences across seven Buddhist worlds from ancient India to the contemporary West Roaming Free Like a Deer provides a comprehensive critical and innovative examination of the theories practices and real world results of Buddhist environmental ethics Daniel Capper clarifies crucial contours of Buddhist vegetarianism or meat eating nature mysticism and cultural speculations about spirituality in nonhuman animals Buddhist environmental ethics often are touted as useful weapons in the fight against climate change However two formidable but often overlooked problems with this perspective exist First much of the literature on Buddhist environmental ethics uncritically embraces Buddhist ideals without examining the real world impacts of those ideals thereby sometimes ignoring

difficulties in terms of practical applications Moreover for some understandable but still troublesome reasons Buddhists from different schools follow their own environmental ideals without conversing with other Buddhists thereby minimizing the abilities of Buddhists to act in concert on issues such as climate change that demand coordinated large scale human responses With its accessible style and personhood ethics orientation *Roaming Free Like a Deer* should appeal to anyone who is concerned with how human beings interact with the nonhuman environment **Still Life with Teapot** Brigid

Foreword INDIES Book of the Year Award in the Philosophy category Meditating on the work of American poet and environmental activist Gary Snyder and thirteenth century Japanese Zen Master Eihei Dogen Jason M Wirth draws out insights for understanding our relation to the planet's ongoing ecological crisis He discusses what Dogen calls the Great Earth and what Snyder calls the Wild as being comprised of the play of waters and mountains emptiness and form and then considers how these ideas can illuminate the spiritual and ethical dimensions of place The book culminates in a discussion of earth democracy a place based sense of communion where all beings are interconnected and all beings matter This radical rethinking of what it means to inhabit the earth will inspire lovers of Snyder's poetry Zen practitioners environmental philosophers and anyone concerned about the global ecological crisis **A Book About Books, Volume II of III** E. Stewardship and the Future of the Planet Rachel

Carnell,Chris Mounsey,2022-07-22 This volume examines historical views of stewardship that have sometimes allowed humans to ravage the earth as well as contemporary and futuristic visions of stewardship that will be necessary to achieve pragmatic progress to save life on earth as we know it The idea of stewardship human responsibility to tend the Earth has been central to human cultures throughout history as evident in the Judeo Christian Genesis story of the Garden of Eden and in a diverse range of parallel tales from other traditions around the world Despite such foundational hortatory stories about preserving the earth on which we live humanity in the Anthropocene is nevertheless currently destroying the planet with breathtaking speed Much research on stewardship today in the disciplines of geography urban studies oceans research and green business practice offers insights that should help address the ecological challenges facing the planet Simultaneous scholarship in the humanities and other fields reminds us that the damage done to the planet has often been carried out in the name of tending the land In order to make progress in environmental stewardship scholars must speak to each other across the disciplinary boundaries as they do in this volume

Syntax of the River Barry Lopez,Julia Martin,2023-01-17

Barry Lopez had no illusions about the seriousness of our global crisis yet he also felt a deep conviction about the power of

hope and the sources of renewal in the living world Syntax of the River is an extended conversation spanning three days between Lopez and Julia Martin in which he explores what this juxtaposition means for him as a writer On the first day Lopez reflects on years watching the McKenzie River near his home in Oregon He describes the quality of attention he learned from intimacy with the place itself a very fine distinction between silence and stillness the rich complexities of the present moment and the syntax of interrelationships between living things The second day is concerned with craft the work of making sentences and books Lopez shares his practical strategies for writing and revising a manuscript and goes on to speak about vulnerability He says he often experienced a deep sense of doubt about his capacity to achieve whatever he was trying to do in a particular project Over time though this characteristic experience of not knowing became a kind of fuel for his work and even a weapon at times On the final day Lopez ponders the idea of writing as a praxis a way of life even a prayer for the earth while concurrently being terrified by the portents of its destruction Here the experience of being an attentive participant emerges as his core teaching Over the decades he developed a practice of attention that was endlessly curious and enthralled by the living world what he calls its pattern or syntax Despite acclaim as a celebrated writer throughout his career Lopez humbly tasked himself with making a combination of wonder and horror work together to effectively communicate a life journey of contemplation exploration and discovery

Homesickness Ryan Hediger, 2019-10-15 Introducing a posthumanist concept of nostalgia to analyze steadily widening themes of animality home travel slavery shopping and war in U S literature after 1945 In the Anthropocene as climate change renders environments less stable the human desire for place underscores the weakness of the individual in the face of the world In this book Ryan Hediger introduces a distinctive notion of homesickness one in which the longing for place demonstrates not only human vulnerability but also intersubjectivity beyond the human Arguing that this feeling is unavoidable and characteristically posthumanist Hediger studies the complex mix of attitudes toward home the homely and the familiar in an age of resurgent cosmopolitanism especially eco cosmopolitanism Homesickness closely examines U S literature mostly after 1945 including prominent writers such as Annie Proulx Marilynne Robinson and Ernest Hemingway in light of the challenges and themes of the Anthropocene Hediger argues that our desire for home is shorthand for a set of important hopes worth defending serious and genuine relationships to places and their biotic regimes and landforms membership in vital cultures human and nonhuman resistance to capital infused forms of globalization that flatten differences and turn life and place into mere resources Our homesickness according to Hediger is inevitable because the self is necessarily constructed with reference to the material past Therefore homesickness is not something to dismiss as nostalgic or reactionary but is rather a structure of feeling to come to terms with and even to cultivate Recasting an expansive range of fields through the lens of homesickness from ecocriticism to animal studies and disability studies eco philosophy to posthumanist theory Homesickness speaks not only to the desire for a physical structure or place but also to a wide range of longings and dislocations including those related to subjectivity
