Medical Physics and Biomedical Engineering the triennial scientific meeting of the IUPESM is the world s leading forum for
presenting the results of current scientific work in health related physics and technologies to an international audience With
more than 2 800 presentations it will be the biggest conference in the fields of Medical Physics and Biomedical Engineering
in 2009 Medical physics biomedical engineering and bioengineering have been driving forces of innovation and progress in
medicine and healthcare over the past two decades As new key technologies arise with significant potential to open new
options in diagnostics and therapeutics it is a multidisciplinary task to evaluate their benefit for medicine and healthcare with
respect to the quality of performance and therapeutic output Covering key aspects such as information and communication
technologies micro and nanosystems optics and biotechnology the congress will serve as an inter and multidisciplinary
platform that brings together people from basic research R D industry and medical application to discuss these issues As a
major event for science medicine and technology the congress provides a comprehensive overview and in depth first hand
