Patronage In Renaissance Italy From 1400 To The Early Sixteenth Century:

Patronage in Renaissance Italy Mary Hollingsworth, 1994 This is the first comprehensive study of patrons in the Italian quattrocento It will be of great interest to art historians and their students and to lovers of Renaissance art and civilization At the start of the fifteenth century the patron not the artist was seen as the creator and he carefully controlled both subject and medium In a competitive and violent age image and ostentation were essential statements of power Buildings bronze or tapestry were much more eloquent statements than the cheaper marble or fresco The artistic quality that concerns us was less important than perceived cost The arts in any case were just part of a pattern of conspicuous expenditure which would have included for instance holy relics manuscripts and jewels all of which had the added advantage that they were portable and could be used as collateral for bank loans Since Christian teaching frowned on wealth and power money had also to be spent on religious endowments made in expiation But here too the patron was in control and used the arts and other means to express religious belief not aesthetic sensibility Thus artists in the Early Renaissance were employed as craftsmen Only late in the century did their relations with patrons start to adopt a pattern we might recognize today This book which also discusses the important differences between mercantile republics like Florence and Venice the princely states such as Naples and Milan and the papal court in Rome is essential for a full understanding of why the works of this seminal period take the forms they do inside cover

disagreements about how to understand the Renaissance and debate the principal texts and authors of the last thirty years who have sought to reconceptualize the period They then turn to the issue of the relation between modern art and the Renaissance Why do modern art historians and critics so seldom refer to the Renaissance Is the Renaissance our indispensable heritage or are we cut off from it by the revolution of modernism The volume includes an introduction by Rebecca Zorach and two final synoptic essays as well as contributions from some of the most prominent thinkers on Renaissance art including Stephen Campbell Michael Cole Frederika Jakobs Claire Farago and Matt Kavalier
