

PITKIN REVIEW FALL 2014

Pitkin Review Fall 2014

Michael J. Sullivan

Pitkin Review Fall 2014:

Pitkin Review Fall 2014 Goddard College MFA Students, Rose Marie Sabangan, 2014-12-11 The Pitkin Review is a literary journal produced by writers who are currently enrolled in the MFA Creative Writing program at one of Goddard College's two campuses. The Pitkin Review is self-supporting, staffed by the MFA candidates and funded solely by the sales of copies of the publication. The publication offers writers experience in submitting to and producing every aspect of a literary journal and also serves as a showcase for exceptional student writing. Published bi-annually in the spring and fall, The Pitkin Review is a collaborative community of editors, writers, and graphic artists who volunteer their time and talents to generate a high quality publication.

Legitimacy in Liberal Democracies Benjamin M. Studebaker, 2024-11-30 In this book Studebaker develops a theory of legitimacy to explain the crisis of liberal democracy in established democracies like the United Kingdom and the United States. In these countries there is deep dissatisfaction with political procedures yet no credible alternatives have emerged. Without alternatives the crisis cannot produce revolution. Instead Studebaker suggests that the disagreements that ordinarily lead to political violence instead proliferate throughout the state and society. As the distinction between legitimacy and ideology blurs, efforts to generate legitimacy instead generate greater inequality, pluralism, and gridlock. As different factions try to save democracy in radically different ways, diverse advocates of democracy get in each other's way and even begin to appear authoritarian to one another. In *Legitimacy in Liberal Democracies* Studebaker depicts a legitimacy crisis rife with state capacity problems in which citizens tell each other many conflicting legitimization stories as they search for ways to live with a dissatisfying political system they cannot replace. The result is a legitimization hydra, a state that is burdened by an excess of narratives that struggles to take any action at all.

Reporting the Road to Brexit Anthony Ridge-Newman, Fernando León-Solís, Hugh O'Donnell, 2018-05-07 This edited collection brings together leading international scholars to explore the connection between Brexit and the media. The referendum and the activism on both sides of the campaign have been of significant interest to the media in the UK and around the world. How these factors have been represented in the media and the role of the media in constructing the referendum narrative are central to assisting the development in our understanding of how UK and global democracy is being manifested in contemporary times. This book explores these topics through presenting a wide range of perspectives from research conducted by leading international scholars and concludes with an assessment of the potential democratic and international implications for the future. By grappling with a highly important and controversial topic in a comparative and varied way, the volume contributes to theoretical debates about the nature and role of the media in complex social, political, and cultural contexts.

Creolizing Critical Theory Kris F. Sealey, Benjamin P. Davis, 2024-01-04 *Creolizing Critical Theory* highlights the Caribbean as a philosophical site from which, for centuries and until today, theorists have articulated pressing critiques of capitalism and colonialism. Some of these critiques, such as those of the Saramaka Maroons, have stressed the value of autonomy. Others such

as those of the West Indies Federation have emphasized solidarity in the face of European occupation Critical Theory as an emancipatory project rooted in the values of autonomy solidarity and equality then has long been a Caribbean practice Drawing on a range of voices Creolizing Critical Theory centers Caribbean critiques with a view toward praxis in the present

The Health of Newcomers Patricia Illingworth, Wendy E. Parmet, 2017-01-24 Immigration and health care are hotly debated and contentious issues Policies that relate to both issues to the health of newcomers often reflect misimpressions about immigrants and their impact on health care systems Despite the fact that immigrants are typically younger and healthier than natives and that many immigrants play a vital role as care givers in their new lands native citizens are often reluctant to extend basic health care to immigrants choosing instead to let them suffer to let them die prematurely or to expedite their return to their home lands Likewise many nations turn against immigrants when epidemics such as Ebola strike under the false belief that native populations can be kept well only if immigrants are kept out In The Health of Newcomers Patricia Illingworth and Wendy E Parmet demonstrate how shortsighted and dangerous it is to craft health policy on the basis of ethnocentrism and xenophobia Because health is a global public good and people benefit from the health of neighbor and stranger alike it is in everyone's interest to ensure the health of all Drawing on rigorous legal and ethical arguments and empirical studies as well as deeply personal stories of immigrant struggles Illingworth and Parmet make the compelling case that global phenomena such as poverty the medical brain drain organ tourism and climate change ought to inform the health policy we craft for newcomers and natives alike

Philosophy for Everyone Matthew Chrisman, Duncan Pritchard, Guy Fletcher, Elinor Mason, Jane Suilin Lavelle, Michela Massimi, Alasdair Richmond, Dave Ward, 2016-07-15 *Philosophy for Everyone* begins by explaining what philosophy is before exploring the questions and issues at the foundation of this important subject Key topics in this new edition and their areas of focus include Moral philosophy the nature of our moral judgments and reactions whether they aim at some objective moral truth or are mere personal or cultural preferences and the possibility of moral responsibility given the sorts of things that cause behavior Political philosophy fundamental questions about the nature of states and their relationship to the citizens within those states Epistemology what our knowledge of the world and ourselves consists in and how we come to have it and whether we should form beliefs by trusting what other people tell us Philosophy of mind what it means for something to have a mind and how minds should be understood and explained Philosophy of science foundational conceptual issues in scientific research and practice such as whether scientific theories are true and Metaphysics fundamental questions about the nature of reality such as whether we have free will or whether time travel is possible This book is designed to be used in conjunction with the free Introduction to Philosophy MOOC massive open online course created by the University of Edinburgh's Eidyn research centre and hosted by the Coursera platform www.coursera.org/course/introphil This book is also highly recommended for anyone looking for a short overview of this fascinating discipline

Mapping and Measuring Deliberation André Bächtiger, John

Parkinson,2019-01-03 Deliberative democracy has challenged two widely accepted nostrums about democratic politics that people lack the capacities for effective self government and that democratic procedures are arbitrary and do not reflect popular will indeed that the idea of popular will is itself illusory On the contrary deliberative democrats have shown that people are capable of being sophisticated creative problem solvers given the right opportunities in the right kinds of democratic institutions But deliberative empirical research has its own problems In this book two leading deliberative scholars review decades of that research and reveal three important issues First the concept deliberation has been inflated so much as to lose empirical bite second deliberation has been equated with entire processes of which it is just one feature and third such processes are confused with democracy in a deliberative mode more generally In other words studies frequently apply micro level tools and concepts to make macro and meso level judgements and vice versa Instead B chtiger and Parkinson argue that deliberation must be understood as contingent performative and distributed They argue that deliberation needs to be disentangled from other communicative modes that appropriate tools need to be deployed at the right level of analysis and that scholars need to be clear about whether they are making additive judgements or summative ones They then apply that understanding to set out a new agenda and new empirical tools for deliberative empirical scholarship at the micro meso and macro levels *The Use of Robotic Technology in Female Pelvic Floor Reconstruction*

Jennifer T. Anger,Karyn S. Eilber,2017-10-18 This text is designed to present a comprehensive and state of the art approach to robotic female pelvic reconstructive surgery Written by experts in both urology and urogynecology each of these sections address patient selection pre operative considerations surgical technique and management of intra and post operative complications Furthermore each chapter includes the most current evidence in the literature that supports specific techniques Extensive illustrations make this an interactive text Emphasis is placed on sacrocolpopexy the mostly commonly performed robotic procedure performed in female pelvic medicine The set up of this operation surgical technique and tips and tricks are discussed In addition the management of the uterus is also be addressed in detail including supracervical and total hysterectomy as well as uterine sparing techniques The appropriate preoperative evaluation including decisions to be made in addressing concomitant surgical conditions such as stress urinary incontinence is addressed so that the reader can provide comprehensive management for all surgical pelvic floor disorders Other reconstructive procedures covered include controversial topics such as power morcellation of the uterus and placement of vaginal mesh The text will also include elements that pertain to male and female patients such as ureteral reimplantation and sigmoid resection *The Use of Robotic Technology in Female Pelvic Floor Reconstruction* will be invaluable to both urologists and gynecologists in the field

Constitutional Law, Religion and Equal Liberty Azin Tadjdini,2019-09-19 During the 20th century many countries embarked on a process of constitutional secularization by which the role of religion gradually became limited Yet by the late 20th century and increasingly following the end of the Cold War this development began to be challenged This book

examines the return of religion in constitutions through the concept of constitutional de secularization It places this phenomenon in the context of the constitutional memory of the countries in which it has taken place and critically examines it against the development and standards of constitutionalism as the prevailing constitutional legal and political theory Central to this analysis is the impact of constitutional de secularization on the regulation of equality in liberty that is both the regulation of constitutional rights and the scope for equality of those who are granted such rights The book argues that equal liberty forms an essential part of constitutionalism as a theory and that constitutionalism therefore entails a continuous development towards expanding it The first and second part of the book presents a conceptual framework for the study of constitutional de secularization The third part presents and analyses three cases of constitutional de secularization in Afghanistan Iran and Iraq The book will be of interest to researchers and policy makers interested in constitutional history and theory and the role of religion in law and its compatibility with human rights

Current Developments in Biotechnology and Bioengineering Jonathan W-C Wong,R. D. Tyagi,Ashok Pandey,2016-09-19 *Current Developments in Biotechnology and Bioengineering* Solid Waste Management provides extensive coverage of new developments state of the art technologies and potential future trends reviewing the latest innovative developments in environmental biotechnology and bioengineering as they pertain to solid wastes also revealing current research priority areas in solid waste treatment and management The fate of solid wastes can be divided into three major areas recycling energy recovery and safe disposal From this foundation the book covers such key areas as biotechnological production of value added products from solid waste bioenergy production from various organic solid wastes and biotechnological solutions for safe environmentally friendly treatment and disposal The state of the art situation potential advantages and limitations are discussed along with proposed strategies on how to overcome limitations Reviews available bioprocesses for the production of bioproducts from solid waste Outlines processes for the production of energy from solid waste using biochemical conversion processes Lists various environmentally friendly treatments of solid waste and its safe disposal

Shrinking Cities Russell Weaver,Sharmistha Bagchi-Sen,Jason Knight,Amy E. Frazier,2016-07-15 *Shrinking Cities* Understanding Shrinkage and Decline in the United States offers a contemporary look at patterns of shrinkage and decline in the United States The book juxtaposes the complex and numerous processes that contribute to these patterns with broader policy frameworks that have been under consideration to address shrinkage in U S cities A range of methods are employed to answer theoretically grounded questions about patterns of shrinkage and decline the relationships between the two and the empirical associations among shrinkage decline and several socio economic variables In doing so the book examines new spaces of shrinkage in the United States The book also explores pro growth and decline centered governance which has important implications for questions of sustainability and resilience in U S cities Finally the book draws attention to U S wide demographic shifts and argues for further research on socio economic pathways of various groups of population contextualized within population trends at various geographic scales This

timely contribution contends that an understanding of what the city has become as it faces shrinkage is essential toward a critical analysis of development both within and beyond city boundaries The book will appeal to urban and regional studies scholars from a variety of disciplinary backgrounds as well as practitioners and policymakers

Materials for Sustainable Environmental, Energy, and Bioresource Applications Phuong Nguyen-Tri, 2024-08-08 This proceedings book showcases the latest research and developments in materials sciences and their applications for solving environmental and energy related challenges The book features insightful contributions from leading researchers academics professionals and students in the field who share their expertise experiences and perspectives on the key issues and innovations in materials sciences and engineering The book is helpful to those interested in environmental sustainability energy efficiency or bioresource utilization

Earned Citizenship Michael J. Sullivan, 2019-03-19 The migration and settlement of 11 million unauthorized immigrants is among the leading political challenges facing the United States today But what do the state and citizens owe to unauthorized immigrants given non citizen contributions to their adopted country and connections to citizens who depend on them Earned Citizenship is a normative intervention in migration and citizenship studies that advances the proposition that long term unauthorized immigrant residents should be able to earn legalization and a pathway to citizenship through service to citizens in their adopted communities

Food and the Risk Society Charlotte Fabiansson, Stefan Fabiansson, 2016-05-26 This book offers a comprehensive understanding of the current scientific knowledge concerning risks associated with food preparation processing and consumption with particular attention to the gap between scientific research and public perception Examining the effects of food on the body from both micro and macro levels it covers a range of broad themes and current concerns including obesity and the obesity epidemic the benefits or otherwise of dietary supplements caffeine consumption GM food alcohol organic food the consumption of fruit and vegetables and pathogens and contaminants Thematically arranged according to the application of broad theoretical approaches in sociological theory the socio cultural perspective the risk society perspective and the governmentality perspective each chapter focuses on a particular area of interest or concern in relation to food covering the existing literature in detail and offering illustrative empirical examples whilst identifying gaps in knowledge and areas for further research An accessible and rigorous examination of food and health and the discrepancy between scientific opinion and consumer perception of safe food the real risks versus the perceived risks this book will appeal to scholars and students of sociology geography food nutrition and environmental ecosystems as well as health professionals

Stitching Governance for Labour Rights Juliane Reinecke, Jimmy Donaghey, 2023-03-16 Transnational labour governance is in urgent need of a new paradigm of democratic participation with those who are most affected typically workers placed at the centre To achieve this principles of industrial democracy and transnational governance must come together to inform institutions within global supply chains This book traces the development of transnational industrial democracy using responses to the 2013 Rana Plaza disaster as the empirical context

A particular focus is placed on the Bangladesh Accord and the JETI Workplace Social Dialogue programme Drawing on longitudinal field research from 2013-2020 the authors argue that the reality of modern day supply chain capitalism has neither optimal institutional frameworks nor effective structures of industrial relations Informed by principles of industrial democracy the book aims at enhancing emerging forms of private transnational governance as second best institutions

From Multiculturalism to Integration Abeeda Qureshi, 2021-09-28 This book is key to the debates surrounding the achievement of Preventing Violent Extremism (PVE) a crucial aspect of SDG16 Peace Justice and Strong Institutions It examines the role of Muslim women activists in the implementation of ethno religious minority policies in the UK It presents a comprehensive analysis of Muslim women's engagement with political and governance processes over the years especially the execution of PVE policies in the aftermath of the 7/7 bombings in the UK It studies the extent to which the government has been successful in its policy of involving Muslim women in governing contexts by referring to changes that these women have brought about as part of the government's consultative forums and meetings Drawing on evidence based on documentary analysis and in depth elite interviews the author highlights the positive role of non elected Muslim women in the wider debate on countering extremism and radicalization An important contribution to the study of minority policies in the UK the book will be useful for students and researchers of security studies public policy minority studies politics multiculturalism terrorism race and ethnic studies and sociology

Pharmacy Practice Research Methods Zaheer-Ud-Din Babar, 2015-03-25

This book presents a contemporary view of pharmacy practice research covering theories methodologies models and techniques that are applicable It has thirteen chapters covering the range of quantitative qualitative action research and mixed methods as well as management theories underpinning change in pharmacy practice Pharmacy Practice Research Methods examines the evidence and impact as well as explores the future Pharmacy practice is rapidly transforming and as such it is to be adaptable as student and academic researchers and to not only understand techniques and methodologies but as champions to nurture the field There is a literature in this area but few integrated texts which cover the wide range of pharmacy practice including methodologies evidence practice and policy This book provides a solid foundation for exploring these phenomenon further and is expected to serve as a valuable resource for academics students policy makers and professional organisations

Stanley Cavell's Democratic Perfectionism Jonathan Havercroft, 2023-08-31 Post truth politics is both a result of a democratic culture in which each person is encouraged to voice their opinion and a threat to the continuation of democracy as partisans seek to deny political standing to those with incommensurate world views Are there resources within political theory for overcoming this tension This book argues that Stanley Cavell s philosophy provides a conceptual framework for responding to post truth politics Jonathan Havercroft develops an original interpretation of Stanley Cavell as a theorist of democratic perfectionism By placing Cavell s writings in conversation with political theorists on debates about the social contract interpretive methods democratic theory and political aesthetics Stanley Cavell s Democratic Perfectionism cultivates modes of responsiveness that strengthen our democratic culture and help us resist the contemporary crisis of democratic backsliding Each chapter diagnoses a sceptical crisis in contemporary politics and a mode of responsiveness in Cavell s thought that can respond to that crisis

Developments in Demography in the 21st Century Joachim Singelmann, Dudley L. Poston, Jr, 2020-02-24 This book introduces demographic applications which employ current demographic concepts and theories and cutting edge methods and findings all of which have and will continue to have an impact in the broad area of social demography Through providing an introduction to new and current developments in demography methodological and statistical issues data issues issues of health aging and mortality and issues in social demography this book gives new insights into data substantive issues and methodological approaches that will assist readers in their use of demography in their research At the same time it shows demographers sociologists economists statisticians methodologists planners and marketers how they may learn and improve upon the quality and relevance of their demographic investigations now and in the future
