Babylon Michael Seymour,2014-08-29 Babylon for eons its very name has been a byword for luxury and wickedness By the rivers of Babylon we sat down and wept wrote the psalmist as we remembered Zion One of the greatest cities of the ancient world Babylon has been eclipsed by its own sinful reputation For two thousand years the real physical metropolis lay buried while another ghostly city lived on engorged on accounts of its own destruction More recently the site of Babylon has been the centre of major excavation yet the spectacular results of this work have done little to displace the many other fascinating ways in which the city has endured and reinvented itself in culture Saddam Hussein for one notoriously exploited the Babylonian myth to associate himself and his regime with its glorious past Why has Babylon so creatively fired the human imagination with results both good and ill Why has it been so enthralling to so many and for so long In exploring answers Michael Seymour's book ranges extensively over space and time and embraces art archaeology history and literature From Hammurabi and Nebuchadnezzar via Strabo and Diodorus to the Book of Revelation Brueghel Rembrandt Voltaire William Blake and modern interpreters like Umberto Eco Italo Calvino and Gore Vidal the author brings to light a carnival of disparate sources dominated by the powerful and intoxicating idea of depravity Yet captivating as this dark mythology was and has continued to be at its root lies a remarkable and sophisticated imperial civilization whose complex state building law making and religion dominated Mesopotamia and beyond for millennia before its incorporation into the still wider empire of the Achaemenid kings *Disputation Literature in the Near East and Beyond* Enrique Jiménez,Catherine

Mittermayer,2020-08-10 Disputation literature is a type of text in which usually two non human entities such as trees animals drinks or seasons try to establish their superiority over each other by means of a series of speeches written in an elaborate flowery register As opposed to other dialogue literature in disputation texts there is no serious matter at stake only the preeminence of one of the litigants over its rival These light hearted texts are known in virtually every culture that flourished in the Middle East from Antiquity to the present day and they constitute one of the most enduring genres in world literature The present volume collects over twenty contributions on disputation literature by a diverse group of world renowned scholars From ancient Sumer to modern day Bahrain from Egyptian to Neo Aramaic including Latin French Middle English Armenian Chinese and Japanese the chapters of this book study the multiple avatars of this venerable text type Scholars and Scholarship in Late Babylonian Uruk Christine Proust,John Steele,2019-01-08 This volume explores how scholars wrote preserved circulated and read knowledge in ancient Mesopotamia It offers an exercise in micro history that provides a case study for attempting to understand the relationship between scholars and scholarship during this time of great innovation The papers in this collection focus on tablets written in the city of Uruk in southern Babylonia These archives come from two

different scholarly contexts One is a private residence inhabited during successive phases by two families of priests who were experts in ritual and medicine The other is the most important temple in Uruk during the late Achaemenid and Hellenistic periods The contributors undertake detailed studies of this material to explore the scholarly practices of individuals the connection between different scholarly genres and the exchange of knowledge between scholars in the city and scholars in other parts of Babylonia and the Greek world In addition this collection examines the archives in which the texts were found and the scribes who owned or wrote them It also considers the interconnections between different genres of knowledge and the range of activities of individual scribes In doing so it answers questions of interest not only for the study of Babylonian scholarship but also for the study of ancient Mesopotamian textual culture more generally and for the study of traditions of written knowledge in the ancient world
