

Chapter 11 & 12 Study Guide: Motion & Forces Answer Key

Chapter 11: Motion

1. Define (include the formula and circle diagram for calculating speed, velocity, and acceleration):
 - a. Distance: The length between two objects or the length of the path traveled.
 - b. Speed: distance traveled by the time it took to travel. **speed = distance/time**
 - c. Velocity: distance traveled by the time it took to travel and the direction that you traveled in. **velocity = distance/time**
 - d. Acceleration: change in velocity or velocity over time. **acceleration = $\frac{velocity_{final} - velocity_{initial}}{time}$**
2. What is the speed of an object at rest? **0 m/s**
3. The difference between speed and velocity is that velocity includes **direction**.
4. The SI unit for distance is **meter (m)**.
5. The SI unit for speed or velocity is **meter per second (m/s)**.
6. The SI unit for acceleration is **meter per second squared (m/s²)**.
7. On a **distance-time** graph, what does the slope tell you? **Speed or Velocity**
8. On a **speed-time** graph, what does the slope tell you? **Acceleration**

Chapter 12: Forces

9. Describe (what does it say and what is it commonly called)
 - a. Newton's First law of Motion: **Also known as "Law of Inertia". Object in motion stays in motion and an object at rest stays at rest UNLESS acted upon by a NET FORCE.**
 - b. Newton's Second law of Motion: **$F = m \times a$. Force equals the product of an object's mass and acceleration. (Acceleration is equal to the force and inversely proportional to mass)**
 - c. Newton's Third law of Motion: **Also known as "Action/Reaction Law". For every action there is an equal and opposite reaction.**
10. Give **an example for each** of Newton's laws
 - a. Newton's First law of Motion: **boulder won't move unless something pushes on it, and the moon won't stop rotating unless a force acts on it.**
 - b. Newton's Second law of Motion: **it takes more force to accelerate a school bus than a toy car.**
 - c. Newton's Third law of Motion: **my foot pushed on the ball (action force), the ball pushes back (reaction force) and fly's forward (resulting net force). OR when you sit in the desk you push down on the desk and the desk pushes on you but they are balanced so there is NO CHANGE in motion.**
11. Define and give an example of each of the following terms.

Definition	Example
a. Friction: force that opposes motion.	a. Friction: heat when rubbing hands together.
b. Static Friction: friction that prevents object from moving.	b. Static Friction: pushing against a dresser that won't move.
c. Sliding Friction: friction that occurs between objects sliding past each other.	c. Sliding Friction: going down a slide; dresser sliding across the floor.
d. Rolling Friction: friction that occurs between object rolling against another object.	d. Rolling Friction: roller skates on pavement; car driving on the road
e. Fluid Friction: friction that occurs in a fluid (Examples of Fluid: water, quicksand, air.)	e. Fluid Friction: falling leaves; fish swimming in water

Physical Science Chapter 12 Review Answers

Primary Science Curriculum Guide John Stringer, 2013-06-17 This guide provides trainee teachers with an insight into the nature and teaching of primary science It aims to introduce you to the ways in which children learn science and to the science itself Each Unit can be studied independently or used to support prepare for school experiences You will be directed towards additional reading which will develop or confirm the subject knowledge you will need to achieve QTS the curriculum guide is up to date revised to take account of Curriculum 2000 and accepted good practice in primary science teaching and learning It is also flexible many of the Units are stand alone They can be undertaken in any order at your own pace to complement school experiences The Units are practical and feasible the activities suggested can be undertaken by the non specialist in many cases without specialized equipment or access to large numbers of pupils The guide is comprehensive covering all the primary science elements in Curriculum 2000 and giving background information into other aspects of primary science teaching It is also supportive the guide suggests further texts to support trainees own understanding of the scientific and pedagogical concepts involved Additional reading draws on the TTA s list of approved key texts The original text was piloted by students following a distance learning PGCE course It has been revised and updated in line with their comments and to meet Curriculum 2000 and Curriculum Guidance for the Foundation Stage The text was initially developed as a core text for the part time distance learning course at Liverpool Hope and is designed for trainee teachers on distance learning and flexible routes returning converting or overseas teachers

[MCAT Physics and Math Review 2024-2025](#) Kaplan Test Prep, 2023-07-04 Kaplan s MCAT Physics and Math Review 2024 2025 offers an expert study plan detailed subject review and hundreds of online and in book practice questions all authored by the experts behind the MCAT prep course that has helped more people get into medical school than all other major courses combined Publisher

McGraw-Hill Education Preparation for the GED Test, Fourth Edition McGraw Hill Editores, México, 2021-03-19 Essential review and practice for all subject areas of the GED test This book covers all four subjects on the test Reasoning Through Language Arts RLA Social Studies Science and Mathematical Reasoning and provides intensive review and practice Pretests for each subject area will help you identify your strengths and weaknesses before starting your studies Learning objectives are based on the Common Core State Standards just like the real exam Extensive review questions are supplemented by two full length sample tests two in the book and two more on the app This new edition will show you how to master the test s new questions involving critical thinking and reasoning Features New Review questions on critical thinking and reasoning match latest test New Micro

lessons section provides unique test taking strategies New Appendix covers the most important vocabulary for each section of the test 2 full length practice tests Step by step review of each of the test s main sections Reasoning Through Language Arts Mathematical Reasoning Science and Social Studies Top 25 lists that cover the most important concepts for each test subject Learning objectives based on the Common Core State Standards allowing you to use the book for all high school equivalency exams Two Score Raising Apps The Practice Test App provides two additional sample GED tests The Flashcard App includes 100 flashcards to help students review all four test sections [Class 6 Science Questions and Answers PDF](#) Arshad Iqbal, The Class 6 Science Quiz Questions and Answers PDF 6th Grade Science Competitive Exam Questions Chapter 1 16 Practice Tests Grade 6 Science Textbook Questions for Beginners includes revision guide for problem solving with hundreds of solved questions Class 6 Science Questions and Answers PDF book covers basic concepts analytical and practical assessment tests Class 6 Science Quiz PDF book helps to practice test questions from exam prep notes The Grade 6 Science Quiz Questions and Answers PDF eBook includes revision guide with verbal quantitative and analytical past papers solved tests Class 6 Science Questions and Answers PDF Free download chapter 1 a book covers solved common questions and answers on chapters Air and atmosphere atoms molecules mixtures and compounds cells tissues and organs changing circuits dissolving and soluble forces habitat and food chain how we see things introduction to science living things and environment micro organisms physical quantities and measurements plant growth plant photosynthesis and respiration reversible and irreversible changes sense organ and senses workbook for middle school exam s papers Science Interview Questions and Answers PDF Download free eBook s sample covers beginner s solved questions textbook s study notes to practice online tests The Class 6 Science Interview Questions Chapter 1 16 PDF book includes middle school question papers to review practice tests for exams Class 6 Science Practice Tests a textbook s revision guide with chapters tests for NEET Jobs Entry Level competitive exam 6th Grade Science Questions Bank Chapter 1 16 PDF Book covers problems solving in self assessment workbook from science textbook and practical eBook chapter wise as Chapter 1 Air and Atmosphere Questions Chapter 2 Atoms Molecules Mixtures and Compounds Questions Chapter 3 Cells Tissues and Organs Questions Chapter 4 Changing Circuits Questions Chapter 5 Dissolving and Soluble Questions Chapter 6 Forces Questions Chapter 7 Habitat and Food Chain Questions Chapter 8 How We See Things Questions Chapter 9 Introduction to Science Questions Chapter 10 Living Things and Environment Questions Chapter 11 Micro Organisms Questions Chapter 12 Physical Quantities and Measurements Questions Chapter 13 Plant Growth Questions Chapter 14 Plant Photosynthesis and Respiration Questions Chapter 15 Reversible and Irreversible Changes Questions Chapter 16 Sense Organ and Senses Questions The Air and Atmosphere Quiz Questions PDF e Book Chapter 1 interview questions and answers on Air and processes air and water atmosphere basic facts composition of air fractional distillation of air gas properties and air and atmosphere The Atoms Molecules Mixtures and Compounds Quiz Questions PDF e Book Chapter 2 interview questions and answers on Atoms and
