The Reception of Northrop Frye ,2021-08-31 The widespread opinion is that Northrop Frye s influence reached its zenith in the 1960s and 1970s after which point he became obsolete his work buried in obscurity This almost universal opinion is summed up in Terry Eagleton s 1983 rhetorical question Who now reads Frye In The Reception of Northrop Frye Robert D Denham catalogues what has been written about Frye books articles translations dissertations and theses and reviews in order to demonstrate that the attention Frye s work has received from the beginning has progressed at a geomantic rate Denham also explores what we can discover once we have a fairly complete record of Frye s reception in front of us such as Hayden White s theory of emplotments applied to historical writing and Byron Alm n s theory of musical narrative The sheer quantity of what has been written about Frye reveals that the only valid response to Eagleton s rhetorical question is a very large and growing number the growth being not incremental but exponential

Unsung Hero of the Falklands War Anthony

Cumming,2025-12-30 The contribution of Commodore Michael Clapp has been overlooked when compared with the other senior Falklands commanders and the time is ripe to redress the balance Despite commanding the Amphibious Task Group and being responsible for Operation Sutton the successful San Carlos landing Clapp was overlooked for promotion instead

received several snubs including not being allowed a seat at the top tables of public events celebrating this stunning victory. Sadly his naval superiors showed no interest in learning the amphibious lessons of the War preferring to focus on supporting the Army in a potential conflict with the Soviet Union in Europe. Michael Clapp's career has illustrated many of the corrosive effects of inter service rivalry and the author asks if the military establishment has now lost interest in amphibious operations in their purest form. This highly readable and controversial work covers Clapp's distinguished wider career which included active service in Korea, the Cyprus Emergency and the Indonesia Malayan Confrontation where he gained a reputation for decisive action. He was an observer and squadron commander in the Fleet Air Arm, took command of several warships and served in staff posts playing a crucial role in the introduction of the famous Sea Harrier V STOL strike aircraft before his appointment as Commodore Amphibious Warfare.

Energy and American Society - Thirteen Myths Benjamin K. Sovacool, Marilyn A. Brown, 2007-05-04

Current events related to energy policy skyrocketing gasoline prices, the 2003 Northeast Blackout, the Kyoto Protocol's enactment, passage of the Energy Policy Act of 2005 and the influence of recent Gulf Coast hurricanes on energy supplies and prices demand innovative approaches towards conceptualizing the relationship between energy and American society. This book takes on a central quandary in the study of energy and environmental policy: What myths continue to exist in American culture concerning energy, the environment and society? It enrolls twenty-four of the nation's top experts working on energy policy in industry, government, laboratories, utilities, nonprofit organizations and universities to debunk and contextualize thirteen energy myths relating to electric power, renewable energy, energy efficiency, transportation and climate change. While the book focuses on the American experience, it will be of interest to those working in the fields of energy policy, energy and the environment and technology assessment worldwide. This is a brilliant, bold and fascinating book that should be read by anybody even remotely concerned about energy, the environment or the future of American society.

Art Rosenfeld, Commissioner California Energy Commission and recipient of the 2006 Enrico Fermi Award. This work is a must read for anyone interested in American energy policy.

Kateri Callahan, President Alliance to Save Energy. By collecting the best minds to debunk the greatest of these myths, Sovacool and Brown have brought us a step closer to finding a national energy policy based on common sense.

Chris Cooper, Executive Director Network for New Energy Choices. Sovacool and Brown provide a bold and imaginative way forward.

John A. Skip Laitner, Visiting Fellow and Senior Economist American Council for an Energy Efficient Economy.
