Martin Jr.,2000-11-09 Frederick Douglass was unquestionably the foremost black American of the nineteenth century The extraordinary life of this former slave turned abolitionist orator newspaper editor social reformer race leader and Republican party advocate has inspired many biographies over the years This however is the first full scale study of the origins contours development and significance of Douglass s thought Brilliant and to a large degree self taught Douglass personified intellectual activism he possessed a sincere concern for the uses and consequences of ideas Both his people s struggle for liberation and his individual experiences which he envisioned as symbolizing that struggle provided the basis and structure for his intellectual maturation As a representative American he internalized and thus reflected major currents in the contemporary American mind As a

representative Afro American he revealed in his thinking the deep seated influence of race on Euro American Afro American or broadly conceived American consciousness He sought to resolve in his thinking the dynamic tension between his identities as a black and as an American Martin assesses not only how Douglass dealt with this enduring conflict but also the extent of his success An inveterate belief in a universal and egalitarian humanism unified Douglass's thought This grand organizing principle reflected his intellectual roots in the three major traditions of mid nineteenth century American thought Protestant Christianity the Enlightenment and romanticism Together these influences buttressed his characteristic optimism Although nineteenth century Afro American intellectual history derived its central premises and outlook from concurrent American intellectual history it offered a searching critique of the latter and its ramifications How to square America's rhetoric of freedom equality and justice with the reality of slavery and racial prejudice was the difficulty that confronted such Afro American thinkers as Douglass

We Need to Build Eboo Patel, 2022-05-10 You don't create societies by burning things down You create societies by building things From the former faith adviser to President Obama comes a fresh manifesto for those who seek to promote positive change and build a more diverse and just democracy The goal of social change work is not a more ferocious revolution it is a more beautiful social order It is harder to organize a fair trial than it is to fire up a crowd more challenging to build a good school than it is to tell others they are doing education all wrong But every decent society requires fair trials and good schools and that's just the beginning of the list of institutions and structures that need to be efficiently created and effectively run in large scale diverse democracy *We Need to Build* is a

call to create those institutions and a guide for how to run them well In his youth Eboo Patel was inspired by love based activists like John Lewis Martin Luther King Jr Badshah Khan Mahatma Gandhi Mother Teresa Dorothy Day Abraham Joshua Heschel and Thich Nhat Hanh Their example and a timely challenge to build the change he wanted to see led to a life engaged in the particulars of building nourishing and sustaining an institution that seeks to promote positive social change Interfaith America Now drawing on his twenty years of experience Patel tells the stories of what he s learned and how in the process he came to construct as much as critique and collaborate more than oppose His challenge to us is clear those of us committed to refounding America as a just and inclusive democracy need to defeat the things we don t like by building the things we do D Diego Torres,2003-12-01 For My Children is like the blues angry mournful and deeply emotional yet hopeful Diego Torres has given us something reminiscent of Jean Toomer s Cane Personal Conflict Management Suzanne Mccorkle,Melanie Reese,2015-08-27 Personal Conflict Management utilizes a modernized theory skill approach to interpersonal conflict placing equal emphasis on the theoretical and practical Supporting the notion that there is not one correct approach to conflict management and utilizing the authors shared experiences as mediators and organizational facilitators this text demonstrates the value of collaborative models for resolving conflict and the necessity and benefits in understanding competitive approaches Through the inclusion of both competitive and cooperative theories the authors present contrasting perspectives of conflict management Beginning with an introduction to conflict the text examines the major approaches and theories of conflict management Following a discussion of the causes and variables which exist within conflicts the skills necessary for conflict management are analyzed including listening the ability to seek information the importance of understanding personality types and behavior patters negotiation and conflict assessment The final two sections of the text take the reader beyond the basics exploring the difficulties encountered in conflict management the aftermath to a conflict and conflicts in context applying the theoretical concepts to everyday situations Written in an academic yet reader friendly style this textbook is enjoyable and thought provoking for both students and instructors Case studies examples essay suggestions discussion questions etc support an interactive environment that optimizes learning opportunities Instructors will find these features useful in the development of classroom discussions and assignments while students will benefit from the opportunity to examine their own conflict behavior and enhance their skills in conflict management **Going Deeper with God** Douglas L. Mead MSSW,2021-06-30 Thank you very much for inviting me to read this book I found it to be a real spiritual journey a refresher to a relationship I have enjoyed with our Lord for sixty years and a treasure trove of new insights and clarifications that serve to strengthen my faith in God Jack Conlin CPA CGMA retired director of corporate finance the Salvation Army US Southern Territory God Wants a Deeper Relationship with You This book digs deeper into exploring many of the challenges we face in establishing and maintaining a meaningful relationship with God Unfortunately there are many differing viewpoints out there in the Christian community about this which is creating

much confusion We hear messages saying God is in control of every single thing We hear we must listen for the voice of God We hear God has a plan for our lives We hear we are to get out of the way and let God handle our problems We hear various ideas of how the Holy Spirit works We hear God's providence will protect us from harm Many people are being drawn to Christian teachings which speak of a mighty God who wants to regularly do big audacious and miraculous things in people's lives Although this sounds enticing how does God really interact with us and our world To dig deeper we must question more Therefore topics are addressed with probing questions and insightful analysis So we ask How important is it for us to find the truth about God If faith is built on false premises how good can that faith be Many topics are addressed and each chapter is full of interesting details This book is also a great resource for Bible classes and sermon material *Reclaiming Dissent*, 2009-01-01 *Reclaiming Dissent* is a unique collection of essays that focus on the value of dissent for the survival of democracy in the United States and the role that education can play with respect to this virtue The various contributors to this volume share the conviction that the vitality of a democracy depends on the ability of ordinary citizens to debate and oppose the decisions of their government Yet recent history in the United States suggests that dissent is discouraged and even suppressed in the political cultural and educational arenas Many Americans are not even aware that democracy is not primarily about voting every four years or majority rule but about actively participating in public debates and civic action This book makes a strong case for the need to reclaim a tradition in the United States like the one that existed during the Civil Rights Era in which dissent opposition and conflict were part of the daily fabric of our democracy Teacher educators teacher candidates new teachers and educators in general can greatly benefit from reading this book *Pullman Porters and the Rise of Protest Politics in Black America, 1925-1945* Beth Tompkins Bates, 2003-01-14 Between World War I and World War II African Americans' quest for civil rights took on a more aggressive character as a new group of black activists challenged the politics of civility traditionally embraced by old guard leaders in favor of a more forceful protest strategy Beth Tompkins Bates traces the rise of this new protest politics which was grounded in making demands and backing them up with collective action by focusing on the struggle of the Brotherhood of Sleeping Car Porters BSCP to form a union in Chicago headquarters of the Pullman Company Bates shows how the BSCP overcame initial opposition from most of Chicago's black leaders by linking its union message with the broader social movement for racial equality As members of BSCP protest networks mobilized the black community around the quest for manhood rights and economic freedom they broke down resistance to organized labor even as they expanded the boundaries of citizenship to include equal economic opportunity By the mid 1930s BSCP protest networks gained platforms at the national level fusing Brotherhood activities first with those of the National Negro Congress and later with the March on Washington Movement Lessons learned during this era guided the next generation of activists who carried the black freedom struggle forward after World War II *Samurai Among Panthers* Diane Carol Fujino, 2012 The first biography of Asian American activist and Black Panther Party member
