Leuba James Pratt and George Albert Coe In addition to probing the intellectual background and professional context for the emergence of this sub discipline the book examines the development of key concepts and methodologies among psychologists of religion and offers arguments both for the rise of the discipline as well as for its demise in the early decades of the 20th century

Alfred Loisy and the Making of History of Religions Annelies Lannoy, 2020-08-10 This monograph studies the professionalization of History of religions as an academic discipline in late 19th and early 20th century France and Europe Its common thread is the work of the French Modernist priest and later Professor of History of religions at the Collège de France Alfred Loisy 1857-1940 who participated in many of the most topical debates among French and international historians of religions Unlike his well studied Modernist theology Loisy's writings on comparative religion and his rich interactions with famous scholars like F. Cumont, M. Mauss or J. G. Frazer remain largely unknown This monograph is the first to paint a comprehensive picture of his career as a historian of religions before and after his excommunication in 1908 Through a contextual analysis of publications by Loisy and contemporaries and a large corpus of private correspondence it illuminates the scientification of the discipline between 1890-1920 and its deep entanglement with religion, politics and society Particular attention is also given to the role of national and transnational scholarly networks and the way they controlled the theoretical and institutional frameworks for studying the history of religions

The Idea of Semitic Monotheism Guy G. Stroumsa, 2021 The Idea of Semitic Monotheism examines some major aspects of the scholarly study of religion in the long nineteenth century from the Enlightenment to the First World War It aims to understand the new status of Judaism and Islam in the formative period of the new discipline Guy G. Stroumsa focuses on the concept of Semitic monotheism a concept developed by Ernest Renan around the mid nineteenth century on the basis of the postulated and highly problematic contradistinction between Aryan and Semitic families of peoples, cultures and religions This contradistinction grew from the Western discovery of Sanskrit and its relationship with European languages at the time of the Enlightenment and Romanticism Together with the rise of scholarly Orientalism this discovery offered new perspectives on the East as a consequence of which the Near East was demoted from its traditional status as the locus of the Biblical revelations This innovative work studies a central issue in the modern study of religion Doing so however it emphasizes the new dualistic taxonomy of religions had major consequences and sheds new light on the roots of European attitudes to Jews and Muslims in the twentieth century up to the present day

The Gospel According to Renan Robert D. Priest, 2015-02-12 The Gospel According to Renan provides a new and holistic interpretation of one of the non-fiction sensations of the nineteenth century Ernest Renan's *Life of Jesus* *Vie de Jésus* Published in 1863 Renan's book aroused enormous controversy through its claim to be a historically accurate biography of Jesus While *Life of Jesus* provoked the ire of the Catholic Church in hundreds of sermons and pamphlets it also

sold hundreds of thousands of copies making a fortune for its author and his publisher Based on research into a huge range of print and manuscript sources *The Gospel According to Renan* demonstrates how Renan's work intervened in a remarkable range of debates in nineteenth century French cultural life These went far beyond questions of religion from the role of individuals in history to the meaning and significance of race Through an engaging reconstruction of Renan's intellectual formation Priest shows how Renan's ideas grew out of the context of Parisian intellectual life after his loss of faith in the 1840s Going beyond a traditional intellectual history Priest uses a wide range of new manuscript sources many of which have never been examined by modern historians in order to reconstruct the ways that ordinary French men and women engaged with one of the great religious debates of their age By tracing the legacy of *Life of Jesus* into the early years of the twentieth century Priest finally shows how Renan's work found new political meaning in the heated debates over secularisation that divided French society in the young Third Republic
