**Russia, the Asymmetric Threat to the United States** John Wood,2009-06-22 Exploring themes critical to understanding the current world order this book lays bare the reality of the new Russia that emerged under Vladimir Putin Russia holds the world's largest natural gas reserves the second largest coal and uranium reserves and the eighth largest oil reserves Europe is dependent on Russia for 25 percent of its oil and gas Russia is also positioning itself to play a similar role with respect to China The key to this strategy is a network of new oil and natural gas pipelines that Russia is in the process of

constructing which will by pass the problematic Ukraine Georgia Poland and the Baltic States in the West and lock in the enormous potential of China in the East Further as the Western economies including the USA begin themselves to recover their growing energy dependence will come back into the forefront and therefore the need to ensure that Russia does not fail in its opening up of new energy resources in the Arctic and Eastern Siberia Russia is no longer a superpower in the Cold War sense of the word because its military is significantly weaker and as such is incapable of conducting a regional let alone global war against either the United States or NATO It is precisely because of its military weakness that Putin has been forced to adopt an asymmetric approach Thus the pipeline spigot and the proliferation of missiles and aircraft have become Russia's weapons of choice along with an ever growing reliance on its strategic nuclear forces to provide it with the necessary deterrent to foreign aggression In addition Putin and Medvedev have no interest in an arms race with the United States it is too costly and detracts from their priority which is economic reform From Putin's perspective America is in the process of imposing absolute security or as Joint Vision 2020 put it full spectrum dominance over the world As the sole remaining superpower the United States enjoys a massive strategic imbalance in its favor which it has used first to contain but now with the intent to control the world How NATO expansion lays the groundwork for a U S global missile defense system to contain perceived adversaries such as Russia which in turn secures the dominance of America through its Prompt Global Strike PGS capability the ability to strike anywhere on the planet with impunity within 90 minutes of the order being given by The President Thus PGS will be to the 21st Century what British Gun Boat Diplomacy was to the 19th Century In such a context Russia is forced to respond asymmetrically

Networking the Russian Diaspora Hon-Lun Helan Yang, Simo Mikkonen, John Winzenburg, 2020-09-30 Networking the Russian Diaspora is a fascinating and timely study of interwar Shanghai Aside from the vacated Orthodox Church in the former French Concession where most Russian migrants resided Shanghai today displays few signs of the bustling settlement of those years Russian musicians established the first opera company in China as well as choirs bands and ensembles to play for their own and other communities Russian musicians were the core of Shanghai's lauded Municipal Orchestra and taught at China's first conservatory Two Russian migrant composers in particular Alexander Tcherepnin and Aaron Avshalomov experimented with incorporating Chinese elements into their compositions as harbingers of intercultural music that has become a well recognized trend in composition since the late twentieth century The Russian musical scene in Shanghai was the embodiment of musical cosmopolitanism anticipating the hybrid nature of twenty first century music arising from cultural

contacts through migration globalization and technological advancement As a pioneering study of the Russian community Networking the Russian Diaspora examines its musical activities and influence in Shanghai While the focus of the book is on music it also gives insight into the social dynamics between Russians and other Europeans on the one hand and with the Chinese on the other The volume coauthored by Chinese music specialists makes a significant contribution to studies of diaspora cultural identity and migration by casting light on a little studied area of Sino Russian cultural relations and Russian influence in modern China The discoveries stretch the boundaries of music studies by addressing the relational aspects of Western music how it has articulated national and cultural identities but also served to connect people of different origins and cultural backgrounds
