Journal of Discovery Douglas E. Goepfert, 2018-04-10 Lets hop in the car and take a trip along the Lewis and Clark trail Lets go back in time and see the country as our forefathers saw it Lets get a clear perspective on our great country at a time when things were not so complex Maybe by looking through eyes of Lewis and Clark Thomas Jefferson John Adams and others we can get a grip on those things that are most important to our country which policies were positive and which were mistakes so we can learn from history and make better choices today So in the summer of 2016 we began a two year Journey of Discovery that would take us to many parts of this great country We learned that the Lewis and Clark expedition created a spirit of perseverance and adventure that would become central to the psyche of American people We also witnessed the impact of that great exploration on the lives of Native Americans and the lands they traversed for the next two hundred years We learned that in a much more complex world we still find many of the same issues that Thomas Jefferson his great explorers and other leaders faced in 1803 And we faced the paramount issue were there unavoidable tradeoffs in building the great and prosperous country that resulted from our continental expansion Or could we have developed the country in a way less injurious to those who stood in the way of westward expansion and manifest destiny
