**Vision:** the development of young people who are encouraged to learn. Individuals who are passionate about their education and their community. Individuals who have gained enough confidence to boldly pursue their dreams in institutions of higher education and training. People with a clear picture of what they want to do with their lives. Students who are committed to learning, regardless of the subject matter, and have the drive to do well in whatever they attempt.

**Mission:** to bridge the education gap caused by the difference in the standard of education offered by the private and public schooling sector, by encouraging a love for learning and a tradition of life-long learning amongst the youth. To ensure that students are well equipped to study at further education and training institutions. To provide a platform for students to catch-up on the backlog of mathematical, scientific and economic knowledge. To make a difference in our corner of the world.

### **Our Focus:**

Referring to the results provided by provided by S.J van der Merwe Technical High school (these can be readily obtained from the school) we see that most of our high school students underperform in Grade 10. The foundation for further education in Grades 11 and 12 is laid in Grade 10. If one fails to build a solid foundation then students pay for it dearly in future, even beyond matric. It is common knowledge that Grade 10 learners enter Grade 11 with huge gaps of content knowledge, particularly in Mathematics and Science. This backlog has left many learners ill-equipped to cope with the basic demands of Grade 10. We wish to address this by running a Winter School Catch-Up programme to catch up this backlog.

### **Aims and Objectives:**

- To encourage students to actively participate in class during lessons by engaging through discussions and asking questions.
- To encourage the development of a more positive attitude towards learning.
- To assist students to have a broader understanding of the subject matter they are studying.
- To ensure that students achieve passing grades with an average of 50% and higher.
- To provide students with an alternative educational resource to combat the lack of textbooks.
- To catch-up the huge backlog in content knowledge of learners entering Grade 10

### **Measurable outcomes:**

Pre and post questionnaires will be administered to the participants to determine the learning that has taken place. Implementation:

- General overview

Tutorial sessions will be conducted by 15 university students in their 1st - 4th year of study (referred to as tutors). Through their University studies these tutors have extensive and specialised knowledge about high school subject matters. The tutors will be sourced from the recent alumni of the high school in question. The program offers a low student-to-teacher ratio by breaking up the students

*Evaluating Educational and Social Programs* Blaine R. Worthen, Karl R. White, 2012-12-06 During the past two decades evaluation has come to play an increasingly important role in the operation of educational and social programs by national state and local agencies Mandates by federal funding agencies that programs they sponsored be evaluated gave impetus to use of evaluation Realization that evaluation plays a pivotal role in assuring program quality and effectiveness has maintained the use of evaluation even where mandates have been relaxed With increased use indeed institutionalization of evaluation in many community state and national agencies evaluation has matured as a profession and new evaluation approaches have been developed to aid in program planning implementation monitoring and improvement Much has been written about various philosophical and theoretical orientations to evaluation its relationship to program management appropriate roles evaluation might play new and sometimes esoteric evaluation methods and particular evaluation techniques Useful as these writings are relatively little has been written about simple but enormously important activities which comprise much of the day to day work of the program evaluator This book is focused on some of these more practical aspects that largely determine the extent to which evaluation will prove helpful

*Winning Grants to Strengthen Your Ministry* Joy Skjegstad, 2007-05-28 Ministry leaders possess the compassion creativity and knowledge about community needs that grant funders appreciate Yet ministry groups are often less experienced than other types of nonprofit organizations in discerning which funding to seek understanding how to build relationships with funders and putting

together proposals This book offers a pathway to strengthening new and existing ministries Joy Skjegstad is an experienced grant proposal writer who has successfully raised money for a variety of nonprofits over the past 20 years including a number of ministry organizations She shows how fundraising can be an integral part of ministry forcing us into deeper conversation with God expanding our relationships with others and building both our faith and our discipline Providing detailed guidance on the practical aspects of seeking grants from foundation and corporate funders Skjegstad describes approaches for researching potential funders developing a case statement putting together an effective grant proposal and following up with grant makers She explains the types of grants available and how to determine which are a good fit with your ministry For faith based ministries faith is the groundwork for fundraising the most important thing to consider while developing fundraising values and strategies Skjegstad helps faith communities identify their own cultural beliefs follow spiritual disciplines and cultivate generous hearts as they work toward integrating their faith and their fundraising

and middle schools do not. This book advocates for the creation of writing centers in 7-12 schools and explains why the school library is the best place for the writing center. There is a glaring absence of writing centers in today's K-12 schools. More and more students are being asked in college entrance testing to submit samples of their writing and employers are expecting their workers to write correctly and clearly. This book addresses the critical lack of writing centers below the undergraduate level. It demonstrates how middle school and high school librarians can create writing centers in their school libraries, explains how to assist students through a one-on-one writing tutorial method, and gives students and teachers the tools for learning and understanding the complex art of writing. Author Timothy Horan, inventor of the School Library Writing Center, establishes why school libraries represent the best and most logical places to create writing centers and why school librarians are the natural choice to direct writing center operations. He then takes readers through the process of creating a writing center from original conception up through opening day. Additional topics covered include how to publicize and grow your School Library Writing Center, maintaining your writing center for efficient operation on a daily basis as well as for years to come, how to become an effective writing center director and writing tutor, the most current technology that can be used to assist in the writing composition and research process, and working with English language learner (ELL) students within your writing center.

*Research in Education*, 1974

**Research Methods 1** Leow Chee Seng, Khairul Salleh bin Mohamed Sahari, Vellapandian Ponnusamy, 2022-07-31

Graduate on time (GOT) has become the holy grail of success in the world of postgraduate education. The majority of students who enrol in a postgraduate research programme have a strong desire to learn. Motivation on the other hand tends to decline on a regular basis. Furthermore, students give up on their education when they cannot see the light at the end of the tunnel. In contrast to the students who chose to withdraw from their programmes, we have encountered thousands of postgraduate students who are able to complete their degrees on time. We were aware of their predicament and the difficulties they were experiencing in their graduate studies. Simply put, students who are unable to complete their studies are unable to do so due to both the students and the supervisors. Keep in mind that other errors can be easily identified. As a result, the supervisors' ability to effectively supervise students has a significant impact on the students' ability to graduate. Naturally, it is the students' responsibility to be self-motivated and consistent in their approach to their studies. The student dropout rate is directly related to a lack of participation and collaboration on the part of any party, including supervisors and students. This book was written with the intention of assisting and guiding academicians as well as postgraduate students through the process of completing their educations. The most important thing is that students have fun while learning new things and feel like they are contributing to the overall body of knowledge. We designed and crafted the book's content based on our previous experiences in order to assist students in organising their academic pursuits in a methodical manner.
