  - Goods should be carefully checked when received. They should then be compared with the purchase order and with the invoice received from the supplier.
  - The purchase order, receiving report, and invoice should be checked to confirm that the information reflected on the documents is in agreement.
  - The computations on the invoice should be checked for accuracy.
  - Authorization for payment should be made by someone other than the person who ordered the goods.
  - Another person should write the check for payment.
