Behavior-Based Assessment in Psychology Tuulia M. Ortner, Fons J. R. van de Vijver, 2015-07-06 An authoritative volume discussing the most influential state of the art behavior based alternatives to traditional self reports in psychological assessment Traditional self reports can be an insufficient source of information about personality attitudes affect and motivation What are the alternatives This first volume in the authoritative series Psychological Assessment Science and Practice discusses the most influential state of the art forms of assessment that can take us beyond self report Leading scholars from various countries describe the theoretical background and psychometric properties of alternatives to self report including behavior based assessment observational methods innovative computerized procedures indirect assessments projective techniques and narrative reports They also look at the validity and practical application of such forms of assessment in domains as diverse as health forensic clinical and consumer psychology

The Authoritarian Personality Theodor Adorno, Else Frenkel-Brenswik, Daniel J. Levinson, R. Nevitt Sanford, 2019-08-27 This hugely influential study on the psychology of authoritarianism was written in answer to Hitler's Germany and now rings more relevant than ever as fascism and anti-Semitism sweep across America What makes a fascist Are there character traits that make someone more likely to vote for the far right The Authoritarian Personality is not only one of the most significant works of social psychology ever written it also marks a milestone in the development of Adorno's thought showing him grappling with the problem of fascism and the reasons for Europe's turn to reaction Over half a century later and with the rise of right wing populism and the reemergence of the far right in recent years this hugely influential study remains as insightful and relevant as ever This new edition includes an introduction by Frankfurt School scholar Peter E. Gordon and contains the first ever publication of Adorno's subsequent critical notes on the project Adorno and his colleagues could easily have been

Handbook of Cross-Cultural and Multicultural Personality Assessment Richard H. Dana, 2000-02-01 Throughout the world as in the United States psychologists are increasingly being called upon to evaluate clients whose backgrounds differ from their own It has long been recognized that standard personality and psychopathology assessment instruments carry cultural biases and in recent years efforts to correct these biases have accelerated The *Handbook of Cross Cultural and Multicultural Personality Assessment* brings together researchers and practitioners from 12 countries with diverse ethnic and racial identities and training to present state of the art knowledge about how best to minimize cultural biases in the assessment of personality and psychopathology They consider research methodology the design and construction of standard objective and projective tests the use of measures of acculturation racial identity and culture specific tests the social etiquette of service delivery and the interpretation of test data for clinical diagnosis Ranging widely through all the relevant issues they share a common

collective vision of how culturally competent services should be delivered to clients The Handbook offers the first comprehensive view of a consistent approach to cultural competence in assessment a necessary precursor of effective intervention It will become an indispensable reference for all those whose practice or research involves individuals with different ethnic and racial identities

Cross-Cultural Dimensions in Conscious Thought George A. De Vos, Eric S. De Vos, 2004-03-12 Cross Cultural Dimensions in Conscious Thought represents a major contribution describing an empirically validated method for analyzing the thematic content of narratives as a tool for comparative research in Anthropology Cultural Psychology and Ethnopsychiatry This second volume in the two volume series presents research conducted in Ireland Kenya Japan the Philippines Canada the United States India Brazil and Venezuela This research illustrates for the cross cultural researcher the usefulness of projective techniques as a means for eliciting culturally relevant information from informants It also exemplifies how the analysis of narrative themes when it is related to other material obtained in field settings can reveal meaningful within group and between group differences in human experience and can help us make sense of conscious human experience across a wide range of sociocultural contexts
