some students experience in learning to read within the context of the development of English orthography i.e. written language and the history of reading instruction in the schools Sayeski then presents what reading science has revealed about individual differences in reading Within the book's final chapters readers will find practical information on how to provide the type of structured literacy instruction required to put students with dyslexia on the path to reading This book is designed for teachers administrators and parents seeking information that can be immediately applied to improve the outcomes of students with dyslexia or who struggle learning to read It is never too soon to address signs of difficulty with reading The aim of this book is to provide readers with the knowledge they need to act now to provide students with the gift of literacy
