

Calibration

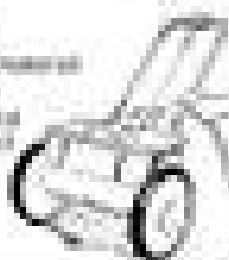

The AccuGreen[®] 3000 spreader was calibrated at the factory. However, check the calibration as follows:

1. Adjust the micrometer setting to 0.
2. Depress the trigger against the handle.
3. The front edge of the agitator should be flush with the calibration strip printed on the bottom of the trigger.
4. To adjust accurately, use a small screwdriver to turn the black calibration screw at the bottom end of the control until reading shows that micrometer was setting correct.

Spend a few minutes on maintenance after each use

1. Never leave product in the spreader. Once release channel has set the package and seal the package tightly.
 2. After each use, wash thoroughly to remove all residue clinging to the spreader. Wash water may be required if used to remove stubborn residue. Allow the spreader to dry thoroughly in the sun.
 3. Store your spreader in a clean, dry place.
- NOTE:** For complete maintenance instructions.
