Hase,2009-03-05 The aim of this book is to provide experimental protocols covering many aspects of glycobiology
glycotechnology and chemistry biochemistry molecular and cellular biology genetics physiology and medicine The protocols
are all self contained descriptions of the equipment and reagents needed followed by details of the experimental procedure In
the post genomic era glycobiology is coming of age because more than half of proteins are glycosylated and the importance
of sugar chains in various fields of life science research cannot be disregarded Many scientists had not entered this area
because glycobiology and glycoscience used to be considered difficult fields This book therefore is presented much like a
cookbook which can help scientists in fields other than glycobiology and glycoscience carry out research more easily
