Making North Carolina Literate Allen W. Trelease, 2004 THIS TITLE IS OUT OF PRINT Founded in 1892 as North Carolina's first state college for women the State Normal and Industrial School quickly transcended its name and original mission From the beginning founder and first President Charles Duncan McIver and his colleagues strove to attain full college status centering on the liberal arts By 1919 that goal was a reality and the institution became the North Carolina College for Women McIver's successor Julius I. Foust set out to make it the state's university for women parallel to the university at Chapel Hill That dream evaporated in the Depression as the Chapel Hill Raleigh and Greensboro campuses consolidated under a single board and most of the graduate work went to Chapel Hill The Greensboro campus became the UNC Woman's College or WC In 1963 all the UNC campuses became coeducational and WC became the University of North Carolina at Greensboro or UNCG UNCG has become a metropolitan university a category sometimes called the land grant universities of the 21st century Like its peers UNCG offers an education of national if not worldwide repute yet draws the great majority of its students from the surrounding Greensboro Winston Salem High Point metropolitan area Three quarters of its students now live off campus and reflecting its

Woman s College origins as well as a national trend two thirds are female This book traces the many sometimes dramatic changes seen at the school college university from its 1892 beginning until 1994 They include the physical campus administrative leadership faculty organization status and professional allegiance the institution versus one s academic discipline the curriculum student identity culture and struggles to win freedom from parietal regulations and shifting alumni relations For many years a perception of underfunding and neglect from above bred identity problems on campus Recent years brought other problems from campus expansion and resultant friction with its neighbors to controversy over athletic scholarships to a brief war over control of the Alumni Association Making North Carolina Literate should be of interest to UNCG alumni faculty and students to readers concerned with North Carolina history women s history and the history of higher education Despite Trelease s long association with UNCG as a professor of history he is concise and unsentimental in his appraisals The result is a well written often witty account of the growth of an educational institution and its larger place in North Carolina and the nation News Record The content and bibliography of this book a comprehensive work in progress for over a decade testify to the author s dedicated research and inclusion of a variety of campus constituents The North Carolina Historical Review Hood s meticulous research his exploration of the rural reform experience during the Progressive era and his willingness to place his topic in a larger historiographical context make it a useful model for others to test how representative Nelson and Washington Counties were The Journal of Southern History *Resources in Education* ,1990

The Oxford Handbook of Externalizing Spectrum Disorders Theodore P. Beauchaine,Stephen P. Hinshaw,2015-10-01 Recent developments in the conceptualization of externalizing spectrum disorders including attention deficit hyperactivity disorder conduct disorder antisocial personality disorder and substance use disorders suggest common genetic and neural substrates Despite this neither shared vulnerabilities nor their implications for developmental models of externalizing conduct are captured by prevailing nosologic and diagnostic systems such as the DSM 5 The Oxford Handbook of Externalizing Spectrum Disorders is the first book of its kind to capture the developmental psychopathology of externalizing spectrum disorders by examining causal factors across levels of analysis and developmental epochs while departing from the categorical perspective World renowned experts on externalizing psychopathology demonstrate how shared genetic and neural vulnerabilities predispose to trait impulsivity a highly heritable personality construct that is often shaped by adverse environments into increasingly intractable forms of externalizing conduct across development Consistent with contemporary models of almost all forms of psychopathology the Handbook emphasizes the importance of neurobiological vulnerability and environmental risk interactions in the expression of externalizing behavior across the lifespan The volume concludes with an integrative ontogenic process model of externalizing psychopathology in which diverse equifinal and multifinal pathways to disorder are specified **A Compendium of Neuropsychological Tests** Esther Strauss,Elisabeth M. S. Sherman,Otfried Spreen,2006-04-06 For the practicing neuropsychologist or researcher keeping up with the sheer number of newly published

or updated tests is a challenge as is evaluating the utility and psychometric properties of neuropsychological tests in a clinical context. The goal of the third edition of *A Compendium of Neuropsychological Tests* a well established neuropsychology reference text is twofold. First the Compendium is intended to serve as a guidebook that provides a comprehensive overview of the essential aspects of neuropsychological assessment practice. Second it is intended as a comprehensive sourcebook of critical reviews of major neuropsychological assessment tools for the use by practicing clinicians and researchers. Written in a comprehensive easy to read reference format and based on exhaustive review of research literature in neuropsychology neurology psychology and related disciplines the book covers topics such as basic aspects of neuropsychological assessment as well as the theoretical background norms and the utility reliability and validity of neuropsychological tests. For this third edition all chapters have been extensively revised and updated. The text has been considerably expanded to provide a comprehensive yet practical overview of the state of the field. Two new chapters have been added: Psychometrics in Neuropsychological Assessment and Norms in Psychological Assessment. The first two chapters present basic psychometric concepts and principles. Chapters three and four consider practical aspects of the history taking interview and the assessment process itself. Chapter five provides guidelines on report writing and chapters six through sixteen consist of detailed critical reviews of neuropsychological tests and address the topics of intelligence achievement executive function attention memory language visual perception somatosensory olfactory function mood personality and response bias. A unique feature is the inclusion of tables that summarize salient features of tests within each domain so that readers can easily compare measures. Additional tables within each test review summarize important features of each test highlight aspects of each normative dataset and provide an overview of psychometric properties. Of interest to neuropsychologists neurologists psychiatrists and educational and clinical psychologists working with adults as well as pediatric populations this volume will aid practitioners in selecting appropriate testing measures for their patients and will provide them with the knowledge needed to make empirically supported interpretations of test results.

Patricia Elizabeth Spencer,Marc Marschark,2010-07-21 Too often decisions on how to best support deaf and hard of hearing children in developing language and academic skills are made based on incorrect or incomplete information No matter how well intentioned decisions grounded in opinions beliefs or value judgments are insufficient to guide practice Instead we need to take advantage of relevant emerging research concerning best practices and outcomes in educating deaf and hard of hearing learners Co authored by two of the most respected leaders in the field this book summarizes and evaluates research findings across multiple disciplines pertaining to the raising and educating of deaf children providing a comprehensive but concise record of the successes failures and unanswered questions in deaf education A readily accessible and invaluable source for teachers university students and other professionals Evidence Based Practice in Educating Deaf and Hard of Hearing Students encourages readers to reconsider assumptions and delve more deeply into what we really know about deaf and hard of hearing children their patterns of development and their lifelong learning

Negotiating Opportunities Jessica McCrory Calarco,2018 In Negotiating Opportunities Jessica McCrory Calarco argues that the middle class has a negotiated advantage in school Drawing on five years of ethnographic fieldwork Calarco traces that negotiated advantage from its origins at home to its consequences at school Through their parents coaching working class students learn to follow rules and work through problems independently Middle class students learn to challenge rules and request assistance accommodations and attention in excess of what is fair or required Teachers typically grant those requests creating

advantages for middle class students Calarco concludes with recommendations advocating against deficit oriented programs that teach middle class behaviors to working class students Those programs ignore the value of working class students resourcefulness respect and responsibility and they do little to prevent middle class families from finding new opportunities to negotiate advantages in school
