Physical Science June 2015 Question For Eastern Cape:

Social Justice and Education in the 21st Century Willie Pearson Jr., Vijay Reddy, 2021-04-10 The world is not an equal place There are high and low income countries and high and low income households For each group there are differential educational opportunities leading to differential educational outcomes and differential labor market opportunities This pattern often reproduces the privileges and inequalities of groups in a society This book explores this differentiation in education from a social justice lens Comparing the United States and South Africa this book analyzes each country's developmental thinking on education from human capital and human rights approaches in both primary and higher education The enclosed contributions draw from different disciplines including legal studies sociology psychology computer science and public policy

Quality education Muchativugwa L. Hove, Martha Matashu, 2021-11-30 This book investigates the intersections between education social justice gendered violence and human rights in South African schools and universities The rich and multifarious tapestry of scholarship and literature emanating from South African classrooms provides a fascinating lens through which we can understand the complex consequences of the economies of education social justice imperatives gendered violence in the lives of women and children and marginalised communities The scholarship in the book challenges readers to imagine alternative futures predicated on the transformational capacity of a democratic South Africa Contributors to this volume examine the many ways in which social justice and gendered violence mirror express project and articulate the larger phenomenon of human rights violations in Africa and how in turn the discourse of human rights informs the ways in which we articulate interrogate conceptualise enact and interpret quality education The book also wrestles with the linguistic contradictions and ambiguities in the articulation of quality education in public and private spaces This book is essential reading for scholars seeking a solid grounding in exploring quality education the instances of epistemic disobedience the political implications of place and power and human rights in theory and practice

Upwelling Systems of the World Jochen Kämpf,Piers Chapman,2016-08-29 Upwelling systems are special places in the oceans where nutrient enriched water is brought into the euphotic zone to fuel phytoplankton blooms that via marine food web interactions create the world s richest fish resources This book introduces the reader to the interdisciplinary science of upwelling and provides a comprehensive overview of the world s most productive marine ecosystems in the context of climate variability climate change and human exploitation This material presented is suitable for undergraduate and postgraduate study or just for anyone interested to learn about the creation of life in the oceans and how this is compromised by human activities

Bones and Bodies Alan G Morris,2022-01-15 Alan G Morris critically examines the history of evolutionary anthropology in South Africa uncovering the often racist philosophical motivations of these physical anthropology researchers and the discipline itself South Africa is famed for its contribution to the study of human evolution In *Bones and Bodies* Alan G Morris takes us back over the past century of anthropological discovery in South Africa and uncovers the stories of the individual scientists and how they contributed to our knowledge of the peoples of southern Africa both ancient and modern Not all of this history is one which we should feel comfortable with as much of the earlier anthropological studies have been tainted with the tarred brush of race science Morris critically examines the work of Raymond Dart Thomas Dreyer Matthew Drennan and Robert Broom who all described their fossil discoveries with the mirror of racist interpretation as well as the life and times in which they worked Morris also considers how modern anthropology tried to rid itself of the stigma of these early racist accounts In the 1960s and 1970s Ronald Singer and Phillip Tobias introduced modern methods into the discipline that jettisoned much of what the public wished to believe about race and human evolution Modern methods in physical anthropology rely on sophisticated mathematics and molecular genetics but are difficult to translate and sometimes fail to challenge preconceived assumptions In an age where the authority of the expert and empirical science is questioned this book shows the battle facing modern anthropology in how to explain science in a context that seems to be at odds with life experience In this highly accessible insider account Morris examines the philosophical motivations of these researchers and the discipline itself Much of the material draws on old correspondence and interviews as well as from published resources

Chemical Bodies Alex Mankoo,Brian Rappert,2018-10-19 In warfare civil unrest and political protest chemicals have served as means of coercion suppression and manipulation This book examines how chemical agents have been justified utilised and resisted as means of control Through attending to how when

and for whom bodies become rendered as sites of intervention Chemical Bodies demonstrates the inter relations between geopolitical transformations and the technological spatial and social components of local events The chapters draw out some of the insidious ways in which chemical technologies are damaging and re open discussion regarding their justification role and regulation In doing so the contributors illustrate how certain instances of force gain prominence or fade into obscurity how some individuals speak and others get spoken for how definitions of what counts as success and failure are advanced and how the rights and wrongs of violence are contested

A scholarly inquiry into disciplinary practices in educational institutions Connie B. Zulu,Izak J. Oosthuizen,Charl C. Wolhuter,Corene de Wet,Rika Joubert,Ansie E. Kitching,Michael L. Marumo,Zahraa McDonald,Nicholus T. Mollo,Louis J. Oosthuizen,Ferdinand J. Potgieter,Bianke van Rooyen,Marius H. Smit,Amos T. Thebenyane,Andre van der Bijl,Johannes (Hannes) L. van der Walt,2019-12-12 This book is a collection of chapters based on original research dealing with issues of discipline and disciplinary practices in educational institutions The aim of the book is to provide a scholarly and scientific perspective on the current state of discipline and disciplinary practices in schools and tertiary education settings The issue of discipline is investigated from diverse paradigmatic and methodological perspectives presenting empirical as well as also philosophical research The empirical perspective includes quantitative positivistic qualitative interpretive and mixed methods pragmatic designs and worldviews This book offers a ground breaking contribution to the field of learner and student discipline with insights into disciplinary practices and issues in educational institutions not hitherto researched such as Technical Vocational Education and Training colleges and universities

Sustainable Built Environment for People and Society ,2025-07-30 The pursuit of sustainable built environments has become a strategic global priority in addressing the complex interplay of social economic environmental and human development challenges outlined in the United Nations Sustainable Development Goals SDGs Accelerating urbanization climate risks and widening inequality are placing unprecedented strain on cities and communities demanding a fundamental shift in how we design deliver and manage the built environment Sustainable built environments are central to achieving key Sustainable Development Goals SDGs particularly SDG 11 Sustainable Cities and Communities SDG 3 Good Health and Wellbeing SDG 7 Affordable and Clean Energy and SDG 13 Climate Action Built infrastructure must minimize environmental impact maximize energy efficiency and enhance the quality of life while placing people at the center ensuring inclusivity resilience and adaptability to future needs A leading example of this approach is the Zero Energy Mass Custom Home ZEMCH initiative ZEMCH promotes the delivery of affordable high performance housing that meets both individual and community needs By combining mass customization with energy efficient design and renewable energy technologies ZEMCH homes aim to achieve net zero energy consumption reduce their carbon footprint and enhance occupant wellbeing Equity and accessibility must also be embedded in the built environment ensuring that all individuals regardless of income age or ability can access safe functional and dignified spaces Ultimately sustainable development is not

only about constructing greener buildings but also about shaping environments that foster social cohesion environmental stewardship and long term wellbeing Achieving this requires cross sector collaboration meaningful community engagement and the integration of sustainability principles throughout the entire lifecycle of the built environment transforming it into a catalyst for positive change for both people and society
