

3. Marking points

3.1 Marking of lists

This applies to questions requiring a set number of responses, but for which students have provided extra responses. The general principle to be followed in such a situation is that 'right + wrong = wrong'.

Each error / contradiction negates each correct response. So, if the number of error / contradictions equals or exceeds the number of marks available for the question, no marks can be awarded.

However, responses considered to be neutral (indicated as * in example 1) are not penalised.

Example 1: What is the pH of an acidic solution?

[1 mark]

Student	Response	Marks awarded
1	green, 5	0
2	red*, 5	1
3	red*, 8	0

Example 2: Name two planets in the solar system.

[2 marks]

Student	Response	Marks awarded
1	Mercury, Venus, Earth, Mars, Jupiter, Saturn, Uranus, Neptune	0

3.2 Marking of short-answer questions / short-answer

For questions requiring a short-answer response, the whole response of a student is considered correct, but marks can be given for the correct response in a short-answer question. In the context of the question, each answer is considered.

3.3 Marking procedures for calculations

Students should be awarded the mark for each step of the calculation completed correctly. No students can be awarded marks for the wrong final answer. For marks for the correct final answer, the question is considered correct. If the student has written the wrong answer, the student is not awarded marks.

3.4 Interpretation of 0

Students using the word 'no' should be given credit only if it is clear that they do not know the correct answer.

Ppe Paper 2 March 2015 Higher Tier Mark Scheme

David Kirk

Ppe Paper 2 March 2015 Higher Tier Mark Scheme:

Thank you very much for reading **Ppe Paper 2 March 2015 Higher Tier Mark Scheme**. As you may know, people have look hundreds times for their favorite books like this Ppe Paper 2 March 2015 Higher Tier Mark Scheme, but end up in harmful downloads.
