

Review Sheet: Exercise 23

Special Senses: Anatomy of the Visual System

Name _____ Lab Time/Date _____

Anatomy of the Eye

1. Name five accessory eye structures that contribute to the formation of lacrimal fluid (tears) and/or help lubricate the eyeball, and then describe the major secretory product of each.

Accessory structures	Product
lacrimal glands	saline solution, lysozyme
conjunctiva	mucus
tarsal glands	oily secretion
caruncle	whitish oily secretion
ciliary glands	sweat

2. The eyeball is wrapped in adipose tissue within the bony orbit. What is the function of the adipose tissue?
to package, protect, and cushion the eyeball in the bony orbit
3. Why does one often have to blow one's nose after crying? _____
because tears drain into the nasal cavities via the nasolacrimal
4. Identify the extrinsic eye muscle predominantly responsible for each action or described below.

lateral rectus	1. turns the eye laterally
medial rectus	2. turns the eye medially
inferior rectus	3. turns the eye up and laterally
inferior rectus	4. turns the eye down and medially
superior rectus	5. turns the eye up and medially

Research Methods and Society Linda Eberst Dorsten, Lawrence Hotchkiss, 2018-12-14 Research Methods and Society Third Edition is designed to help undergraduate students acquire basic skills in methods of social science research These skills provide a foundation for understanding research findings in the social sciences and for conducting social research Just as important such skill sets and principles can be applied to everyday situations to make sense of the endless stream of claims and counterclaims confronted daily in print and electronic forms including social media Key features of this book include Straightforward prose including key concepts and tools Concrete and everyday examples and hands on practice activities and Applications designed to be interesting and useful to students Organization to accommodate term length research projects Chapter Summaries and Review Sheets Assignments to meet specific learning goals Evaluation of key excerpts from research reports published in professional journal articles and popular press Analysis of secondary data e g from the General Social Survey Analysis of primary data from mini research projects Combinations of methods applications using more than one activity e g evaluating published reports and completing secondary data analysis or mini projects New to Third Edition New chapter Ethics and Social Science Research Many new and updated citations including from international sources References to Internet survey tools and software how to find data online what to consider and how to choose References to noteworthy informative media from online sources e g Annenberg Learning universities weblogs YouTube Supplemental Instructor Materials Instructor s Manual Test Bank PowerPoint presentations *World's Story 1: The Ancients (Teacher Guide)* Angela O'Dell, 2018-03-23 Ancient history is fascinating but it can be difficult to find material that teaches it from a Christian perspective Even harder is finding a history curriculum that captivates students But Angela O

Dell's newly revised *The World's Story 1 The Ancients* does both. Students will learn all about the ancient civilizations of the Middle East, Europe, Africa, Asia, and the Americas from a strong Biblical perspective. Focuses on History and interweaves a Christian perspective throughout. Features an engaging historical narrative. First volume in a three-book world history series for upper elementary and junior high students. The text covers Biblical history, also educating students about civilizations mentioned in the Bible, including ancient Egypt, ancient Israel, ancient Babylon, ancient Persia, ancient Greece, and ancient Rome, up to the development of the early Church. It also discusses other ancient civilizations from around the world. **The New Ireland Review**, 1895 *Practice-Based Clinical Inquiry in Nursing for DNP and PhD Research* Joan R.

Bloch, Maureen R. Courtney, Myra L. Clark, 2016-02-11. Meticulously compiled to serve the specific needs of APRNs and nurse executives engaged in doctoral level research, this text provides evidence-based and practice-based scholarly methods not traditionally taught in PhD or DNP programs. Building on and expanding traditional nursing research methods, the book focuses on both existing and evolving methods of clinical inquiry, some of which incorporate technology and knowledge from other disciplines. These are approaches that can be translated into clinical practice, providing the nursing profession with unprecedented opportunities for collaboration in improving health and health care systems. Methods include quality improvement, implementation science, logic models, program planning and evaluation, patient engaged and community participatory research, dissemination research, big data, comparative effectiveness research, and systematic reviews. Chapters provide clear guidance on why and how to use a particular method and are consistently organized to enable a comparison and contrast of different approaches in order to select the one that best fits a particular research need. The text highlights the importance of each approach and discusses why to use a particular method for doctoral nursing work. Chapters describe how to apply the method along with how to interpret findings and disseminate them. The description of each method concludes with examples from the published literature. Practical tips for impact and success in research and program proposals add further to the text's value. Key Features: Presents research methods specifically for doctoral level evidence-based and practice-based clinical research. Describes interdisciplinary health care methodologies focused on evidence-based improvement in health care. Offers practical information on why and how to use each method. Provides examples of each method from published literature. Written by experienced academic and practice scholars from across the U.S. *Trained Nurse and Hospital Review*, 1957 **CMA Examination Review: Outlines and study guides** Irvin N. Gleim, Dale L. Flesher, 1993
