the more people wanted to work with me I felt like I was part of something bigger than myself 2 Connecting your money to a cause movement or purpose will make you feel fulfilled and help you make a difference in the world 3 Money does make you happy but only up to a point After that more money doesn't lead to greater happiness This is known as income satiation and it typically occurs at an annual income of less than 100 000 4 The cycle of more money equals more happiness is false Once you earn about 75 000 a year more money doesn't make you any happier Other studies have similar results
