Richard E Speidel Book:

Military Law Review ,1978 *Teaching Notes to Accompany Studies in Contract Law, Second Edition*, by Edward J. Murphy, Richard E. Speidel Edward J. Murphy, Richard E. Speidel, 1977 **Arbitration Law in America** Edward Brunet, Richard E. Speidel, Jean E. Sternlight, Stephen J. Ware, 2006-01-09 Arbitration Law in America A Critical Assessment is a source of arguments and practical suggestions for changing the American arbitration process The book argues that the Federal Arbitration Act badly needs major changes The authors who have previously written major articles on arbitration law and policy here set out their own views and argue among themselves about the necessary reforms of arbitration The book contains draft legislation for use in international and domestic arbitration and a detailed explanation of the precise justifications for proposed legislative changes It also contains two proposals that might be deemed radical to ban arbitration related to the purchase of products by consumers and to prohibit arbitration of employment disputes Each proposal is vetted fully and critiqued by one or more of the other co authors Law and Class in America Paul Carrington, Trina Jones, 2006-06 In Law and Class in America a group of leading legal scholars reflect on the state of the law from the end of the Cold War to the present grappling with a central question posed to them by Paul D Carrington and Trina Jones have recent legal reforms exacerbated class differences in America In a substantive introduction Carrington and Jones assert that legal changes from the late 20th century onward have been increasingly elitist and unconcerned with the lives of poor people having little access to the legal system Contributors use this position as a springboard to review developments in their own particular fields and to assess whether or not legal decisions and processes have contributed to a widening gap between privileged and unprivileged people in this country From antitrust and bankruptcy to tax and election law the essays in this unique volume invite readers to reflect thoughtfully on socio economic justice in the new century and suggest that a lack of progressive reform in all areas of law may herald a form of undiagnosed class dominance reminiscent of America s Gilded Age Contributors Margaret A Berger M Gregg Bloche David L Callies Paul D Carrington Paul Y K Castle Lance Compa James D Cox Paula A Franzese Marc Galanter Julius G Getman Lawrence O Gostin Joel F Handler Trina Jones Thomas E Kauper Sanford Levinson John Linehan Joseph D McNamara Burt Neuborne Jeffrey O Connell Judith Resnik Richard L Schmalbeck Danielle Sarah Seiden Richard E Speidel Gerald Torres David M Trubek Elizabeth Warren and Lawrence A Zelenak

Supranational Citizenship and the Challenge of Diversity Francesca Strumia, 2013-09-05 In Supranational Citizenship and the Challenge of Diversity Francesca Strumia explores the potential of European citizenship as a legal construct and as a marker of group boundaries for filtering internal and external diversities in the European Union Adopting comparative federalism methodology and drawing on insights from the international relations literature on the diffusion of norms the author questions the impact of European citizenship on insider outsider divides in the EU as experienced by immigrants set by member states and perceived by native citizens The book proposes a novel argument about supranational

citizenship as mutual recognition of belonging This argument has important implications for the constitution of insider outsider divides and for the reconciliation of multiple levels of diversity in the EU **Law, Society, and History** Robert W. Gordon, Morton J. Horwitz, 2011-03-07 This book assembles essays on legal sociology and legal history by an international group of distinguished scholars All of them have been influenced by the eminent and prolific legal historian legal sociologist and scholar of comparative law Lawrence M Friedman Not just a Festschrift of essays by colleagues and disciples this volume presents a sustained examination and application of Friedman s ideas and methods Together the essays in this volume show the powerful ripple effects of Friedman s work on American and comparative legal sociology American and comparative legal history and the general sociology of law and legal change *A Theory of Contract Law* Peter A. Alces, 2011 In the past few decades scholars have offered positive normative and most recently interpretive theories of contract law This title confronts the leading interpretive theories of contract and demonstrates their interpretive doctrinal failures **DA Pam** , 1959

Journal of Legal Education Volume 45. March 1995 .Number 1 Association of American Law Schools, Jonathan L. Entin, Erik M. Jensen, William P. Marshall, Editors., 1995 **Implicit Dimensions of Contract** David Campbell, Hugh Collins, John Wightman, 2003-07-16 This collection of essays derived from an international workshop explores the significance of implicit understandings and tacit expectations of the parties to different kinds of contractual agreements ranging from simple discrete transactions to long term associational agreements such as those formed in companies An interdisciplinary and comparative approach is used to investigate how the law comprehends and gives effect to these implicit dimensions of contracts The significance of this enquiry is found not only in relation to the interpretation of contracts in many different contexts but more fundamentally in how social practices involved in making contracts should be analysed and comprehended

Rethinking Contract Law and Contract Design Victor P. Goldberg, 2015-02-27 Contract law allows parties to set their own rules within constraints It provides a set of default rules and if the parties do not like them they can change them Rethinking Contract Law and Contract Design explores various long standing contract doc **The Richness of Contract Law** R.A. Hillman, 2012-12-06 Scholars have produced a wide variety of theoretical work on contract law This is the first book to compile it to present it coherently to evaluate it and to supply numerous references to additional sources The author also offers his own practical perspective that emphasizes contract law s richness and complexity and questions the utility of abstract unitary theories The author argues that notwithstanding contract law s complexity it successfully facilitates the formation and enforcement of private arrangements and ensures a degree of fairness in the process of exchange Each chapter presents a pair of largely contrasting theories to clarify the central issue of contract law and theory to set forth the range of views and to help identify a practical middle ground Among the contract theories discussed and analyzed are promise contextual feminist formal mainstream critical economic empirical and relational The book should interest legal theorists practising lawyers law students and general readers who want to learn more about contract law and theory

Legal Realism at Yale, 1927-1960 Laura Kalman, 2016-08-01 For more than one hundred years Harvard's use of the case method of appellate opinions dominated legal education. Deploring the attempt to reduce law to an autonomous system of rules and principles, the realists at Yale developed a functional approach to the discipline, one that stressed the factual context of the case rather than the legal principles it raised, one that attempted to address issues of social policy by integrating law with the social sciences. Originally published 1986. A UNC Press Enduring Edition. UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print. These editions are published unaltered from the original and are presented in affordable paperback formats, bringing readers both historical and cultural value.

Law in a Digital World M. Ethan Katsh, 1995-05-25 The world of law is a world of information. Rules, judgments, decisions, interpretations, and agreements all involve using and communicating information. Today we are experiencing a significant transition from letters fixed on paper to information stored electronically. The digital era, where information is created, stored, and communicated electronically, is quickly approaching if not already here. The future of law will no longer be found in impressive buildings and leather-bound books but in small pieces of silicon, in streams of light, and in millions of miles of wires and cable. It will be a world of new relationships and greater possibilities for individual and group communication, an environment where the value of information increases as it is shared. In *Law in a Digital World*, M. Ethan Katsh explores how these new technologies will alter one of our most central institutions. He considers the different ways in which people will not only electronically read and write but also interact with our vast storehouses of legal knowledge and information. He envisions how sounds and pictures will play into the largely imageless print world of law and looks at the future importance of graphic and nontextual communication. He explores how the flexible, personalized organization of data will transform the way we gather information and whether information can or cannot be contained, raising questions of copyright and privacy. What happens to the law when information is more plentiful and accessible? What happens to those people who suddenly have access to information never before available? Does the use of information in a new form change the institution, the user, and those who come in contact with the user? And what role does the lawyer play in all of this? For citizens, for lawyers, for all those who will be part of the digital world rushing toward us, Katsh answers these questions while considering the implications of this new era.

Super Crunchers Ian Ayres, 2008-08-26 NEW YORK TIMES BESTSELLER With new information on crunching your own numbers to get the edge, the experts have an international sensation and still the talk of the relevant blogosphere. This Wall Street Journal and New York Times business bestseller examines the power in numbers. Today more than ever, number crunching affects your life in ways you might not even imagine. Intuition and experience are no longer enough to make the grade. In order to succeed, even survive in our data-based

world you need to become statistically literate Cutting edge organizations are already crunching increasingly larger databases to find the unseen connections among seemingly unconnected things to predict human behavior with staggeringly accurate results From Internet sites like Google and Amazon that use filters to keep track of your tastes and your purchasing history to insurance companies and government agencies that every day make decisions affecting your life the brave new world of the super crunchers is happening right now No one who wants to stay ahead of the curve should make another keystroke without reading Ian Ayres s engrossing and enlightening book Books and Pamphlets, Including Serials and Contributions to Periodicals Library of Congress. Copyright Office,1968 *Harvard Law Review: Volume 125, Number 1 - November 2011* Harvard Law Review,2011-11-22 The Harvard Law Review is offered in a digital edition for ereaders featuring active Table of Contents linked footnotes and cross references legible tables and proper ebook formatting The Review generally publishes articles by professors judges and practitioners and solicits reviews of important recent books from recognized experts Most student writing takes the form of Notes Recent Cases Recent Legislation and Book Notes This current issue of the Review is November 2011 the first issue of academic year 2011 2012 Volume 125 The November issue is the special annual review of the Supreme Court s previous term Each year the issue is introduced by noteworthy and extensive articles from recognized scholars In this issue the Foreword is authored by Dan Kahan and examines the idea of neutral judicial review and the Supreme Court s methodology of constitutional decisionmaking and establishment of precedent as well as the problem of motivated cognition particularly in light of notable cases from the 2010 Term An article by Judith Resnik offers an extensive Comment on three recent notable cases Wal Mart v Dukes AT T v Concepcion and Turner v Rogers In addition the first issue of each new volume provides an extensive summary of the important cases of the previous Supreme Court docket on a wide range of legal political and constitutional subjects This issue surveys in a series of case notes the 2010 Term Finally the issue includes statistical summaries and tables of the 2010 Term and recent book notes
