and the impact the rubric phenomenon is having in reshaping education The chapters included in this edited volume will critically reflect on the contemporary contexts of rubrics and the uses and impact of rubrics in education Since rubrics have become indelible in education it is necessary for a fuller nuanced discussion of the phenomenon Creating a book that explores these aspects of rubrics is timely and fundamental to expanding the discourse on this ubiquitous evaluation tool This book is not meant to be a series of chapters dedicated to best practices for creating rubrics nor is this text meant to present all sides of the rubric discussion Rather this text intends to offer critical polemics about rubrics that can spur greater critical discussion about a phenomenon in education that has largely been unquestioned in the literature

Implementing and Analyzing Performance Assessments in Teacher Education Joyce E. Many, Ruchi Bhatnagar, 2017-12-01 Teacher education has long relied on locally developed assessments that lack reliability and validity Rigorous performance based assessments for preservice teachers have been advanced as one possible way to ensure that all students receive instruction from a high quality teacher Recently performance based assessments have been developed which focus on the application of knowledge of teaching and learning in a classroom setting Our book explores factors related to the implementation of teacher performance assessments in varying state and institutional contexts The contributors teacher educators from across the country focus on what was learned from inquiries conducted using diverse methodologies quantitative qualitative self studies and mixed methods Their research encompassed faculty supervisors cooperating teachers and students perceptions and concerns of teacher performance assessments case studies of curricular reform and or resistance analyses of experiences and needs as a result of the adoption of such assessments and examinations of the results of program alignment and reform The chapters showcase experiences which occurred during high stakes situations in implementation periods prior to high stakes adoption and in contexts where programs adopted performance assessments as an institutional policy rather than as a result of a state wide mandate

Endorsements The chapters compiled for *Implementing and Analyzing Performance Assessments in Teacher Education* edited by Joyce E Many and Ruchi Bhatnagar present a thoughtful look at the challenges and solutions embedded in the adoption of teacher performance assessments for preservice teachers Most chapters feature edTPA the most commonly used performance assessment now mandated in numerous states and used voluntarily by other programs across the country and reveal how such assessments shine a bright light on the problems of practice in teacher preparation stressful timelines faculty silos communication with P 12 partners etc when new requirements disrupt the status quo Each chapter tells a valuable story of performance assessment implementation and approaches that offset compliance in favor of inquiry and educative experiences for candidates and programs alike

Andrea Whittaker Ph D edTPA National Director Stanford University Graduate School of Education UL SCALE Many and Bhatnagar launch the AAPE book series with a curated volume highlighting the contexts in which teacher educators implement and utilize performance assessments in educator preparation Together the chapters present research from various viewpoints from candidates faculty university

supervisors and clinical partners using diverse methodologies and approaches The volume contributes significantly to the program assessment research landscape by providing examples of how performance assessments inform preparation at the intersection of praxis and research and campus and field These chapters provide a critical foundation for teacher educators eager to leverage performance assessments to improve their programs Diana B Lys EdD Assistant Dean of Educator Preparation and Accreditation School of Education University of North Carolina at Chapel Hill

V. Angelelli, Holly E. Jacobson, 2009 *Testing and Assessment in Translation and Interpreting Studies* examines issues of measurement that are essential to translation and interpreting. Conceptualizing testing both as a process and a product, the collection of papers explores these issues across languages and settings including university classrooms, research projects, the private sector, and professional associations. The authors have approached their chapters from different perspectives using a variety of methods, some focusing on very specific variables and others providing a much broader overview of the issues at hand. Chapters range from a discussion of the measurement of text cohesion in translation, the measurement of interactional competence in interpreting, the use of a particular scale to measure interpreters' renditions, to the application of a specific approach to grading or general program assessment such as interpreter or translator certification at the national level or program admissions processes. These studies point to the need for greater integration of research and practice in the specific area of testing and assessment and are a welcome addition to the field.
