Running With Scissors Study Guide:

Pediatric Critical Care Study Guide Steven E. Lucking, Frank A. Maffei, Robert F. Tamburro, Neal J. Thomas, 2012-04-10

This is the first comprehensive study guide covering all aspects of pediatric critical care medicine. It fills a void that exists in learning resources currently available to pediatric critical care practitioners. The major textbooks are excellent references but do not allow concise reading on specific topics and are not intended to act as both text and study guide. There are also several handbooks available but these are usually written for general pediatric residents and lack the advanced physiology and pathophysiology required for the higher level pediatric critical care practitioner. *Study Guide to Accompany Egan's Fundamentals of Respiratory Care* Stephen F. Wehrman, Robert L. Wilkins, James K. Stoller, 2003. Includes a wide variety of activities such as review questions, 3 levels following the NBRC question format, vocabulary review, chapter objectives, chapter highlights, case studies, and critical thinking questions. *Kaplan & Sadock's Study Guide and Self-Examination Review in Psychiatry* Benjamin J. Sadock, Virginia A. Sadock, Pedro Ruiz, 2012-03-28. Kaplan Sadock's Study Guide and Self-Examination Review in Psychiatry is a comprehensive review of the specialty and perfect for stand-alone review or as preparation for the PRITE in service, ABPN Part I, and recertification examinations. The book contains more than 1,600 multiple choice questions and answers with explanatory discussions of correct and incorrect responses. Chapters parallel the essential corresponding chapters in Kaplan Sadock's Synopsis of Psychiatry, a staple of psychiatry education around the globe. Terms and definitions are consistent with DSM-IV-TR and ICD-10. **Study Guide for Wong's Essentials of Pediatric Nursing - E-Book**
