child care or share information on child rearing Compared to legal status parents undocumented parents experience significantly more exploitive work conditions including long hours inadequate pay and raises few job benefits and limited autonomy in job duties These conditions can result in ongoing parental stress economic hardship and avoidance of center based child care which is directly correlated with early skill development in children The result is poorly developed cognitive skills recognizable in children as young as two years old which can negatively impact their future school performance and eventually their job prospects Immigrants Raising Citizens has important implications for immigration policy labor law enforcement and the structure of community services for immigrant families In addition to low income and educational levels undocumented parents experience hardships due to their status that have potentially lifelong consequences for their children With nothing less than the future contributions of these children at stake the book presents a rigorous and sobering argument that the price for ignoring this reality may be too high to pay
