

Diary Entry

Dear Diary,

Date: Friday, 25th March 2022

Today was a day filled with unexpected challenges and delightful victories. As I sit here, penning down my thoughts, I am reminded of the beauty of resilience and determination.

My day started off with a jolt when I accidentally spilled coffee on my favorite white blouse just as I was leaving for work. I had to rush back inside, change quickly into another outfit, and race against time to make it to school on time.

At school, I was greeted by the sight of my students, all eager and excited for our field trip to the local museum. The trip went wonderfully well. We were captivated by the fascinating artifacts and exhibits, each telling a unique story of our history and culture. Watching the students engage so profoundly with the exhibits reminded me once again why I love teaching.

Post the trip, we returned to school for a surprise quiz I had planned for the students. Despite the initial groans, they performed exceptionally well which was a testament to their attentiveness during the museum visit.

After school, I headed to the gym for my usual workout. I managed to run an extra mile on the treadmill today, a small victory that left me feeling accomplished and energized.

Dinner was a simple affair - a homemade salad with grilled chicken, followed by my favorite - a scoop of vanilla ice cream. I then spent the rest of the evening curled up on my couch, engrossed in my book.

As I reflect on my day, I realize it's these little ups and downs that make life interesting. The spilled coffee, the successful field trip, the surprise quiz, the extra mile - each event, no matter how big or small, contributes to our journey in its own unique way.

As I close this entry, I am filled with gratitude for the experiences of today and anticipation for what tomorrow holds.

Goodnight,

P.S. Whiskers has been strutting around the house all day, basking in his victory from yesterday. His mouse-catching skills have certainly boosted his confidence!

Ellerton,M. A. (Ken) Clements,2017-03-02 This book tells one of the greatest stories in the history of school mathematics Two of the names in the title Samuel Pepys and Isaac Newton need no introduction and this book draws attention to their special contributions to the history of school mathematics According to Ellerton and Clements during the last quarter of the seventeenth century Pepys and Newton were key players in defining what school mathematics beyond arithmetic and elementary geometry might look like The scene at which most of the action occurred was Christ s Hospital which was a school ostensibly for the poor in central London The Royal Mathematical School RMS was established at Christ s Hospital in 1673 It was the less well known James Hodgson a fine mathematician and RMS master between 1709 and 1755 who demonstrated that topics such as logarithms plane and spherical trigonometry and the application of these to navigation might systematically and successfully be taught to 12 to 16 year old school children From a wider history of school education

perspective this book tells how the world's first secondary school mathematics program was created and how slowly but surely what was being achieved at RMS began to influence school mathematics in other parts of Great Britain Europe and America The book has been written from the perspective of the history of school mathematics Ellerton and Clements's analyses of pertinent literature and of archival data and their interpretations of those analyses have led them to conclude that RMS was the first major school in the world to teach mathematics beyond arithmetic on a systematic basis to students aged between 12 and 16 Throughout the book Ellerton and Clements examine issues through the lens of a long time theoretical perspective From a historiographical perspective this book emphasizes how the history of RMS can be portrayed in very different ways depending on the vantage point from which the history is written The authors write from the vantage point of international developments in school mathematics education and therefore their history of RMS differs from all other histories of RMS most of which were written from the perspective of the history of Christ's Hospital
