Theories of Informetrics and Scholarly Communication Cassidy R. Sugimoto, 2016-02-22 Scientometrics have become an essential element in the practice and evaluation of science and research including both the evaluation of individuals and national assessment exercises Yet researchers and practitioners in this field have lacked clear theories to guide their work As early as 1981 then doctoral student Blaise Cronin published The need for a theory of citing a call to arms for the fledgling scientometric community to produce foundational theories upon which the work of the field could be based More than three decades later the time has come to reach out the field again and ask how they have responded to this call This book compiles the foundational theories that guide informetrics and scholarly communication research It is a much needed compilation by leading scholars in the field that gathers together the theories that guide our understanding of authorship citing and impact

New Publication Cultures in the Humanities Péter Dávidházi, 2025-10-01 The changes we have seen in recent years in the scholarly publishing world including the growth of digital publishing and changes to the role and strategies of publishers and libraries alike represent the most dramatic paradigm shift in scholarly communications in centuries This volume brings together leading scholars from across the humanities to explore that transformation and consider the challenges and opportunities it brings

Handbook of Ratings Alexander Karminsky, Andrey Polozov, 2016-08-04 This handbook presents a systematic overview of approaches to diversity and problems involved in interdisciplinary rating methodologies Historically the purpose of ratings is to achieve information transparency regarding a given body s activities whether in the field of finance banking or sports for example This book focuses on commonly used rating methods in three important fields finance sports and the social sector In the world of finance investment decisions are largely shaped by how positively or negatively economies or financial instruments are rated Ratings have thus become a basis of trust for investors Similarly sports evaluation and funding are largely based on core ratings From local communities to groups of nations public investment and funding are also dependent on how these bodies are continuously rated against expected performance targets As such ratings need to reflect the consensus of all stakeholders on selected aspects of the work and how to evaluate their success The public should also have the opportunity to participate in this process The authors examine current rating approaches from a variety of proposals that are closest to the public consensus analyzing the rating models and summarizing the methods of their construction This handbook offers a valuable reference guide for managers analysts economists business informatics specialists and researchers alike

The Engaged Scholar Andrew J. Hoffman, 2021-03-02 Society and democracy are ever threatened by the fall of fact
Rigorous analysis of facts the hard boundary between truth and opinion and fidelity to reputable sources of factual
information are all in alarming decline A 2018 report published by the RAND Corporation labeled this problem truth decay
and Andrew J Hoffman lays the challenge of fixing it at the door of the academy But as he points out academia is prevented
from carrying this out due to its own existential crisis a crisis of relevance Scholarship rarely moves very far beyond the walls
of the academy and is certainly not accessing the primarily civic spaces it needs to reach in order to mitigate truth corruption
In this brief but compelling book Hoffman draws upon existing literature and personal experience to bring attention to the
problem of academic insularity where it comes from and where if left to grow unchecked it will go and argues for the
emergence of a more publicly and politically engaged scholar This book is a call to make that path toward public engagement
more acceptable and legitimate for those who do it to enlarge the tent to be inclusive of multiple ways that one enacts the
role of academic scholar in today's world *Developments in Management Science in Engineering 2018* Jiuping
Xu, 2020-01-17 Management science in engineering MSE is playing an increasingly important role in modern society In
