Britton,Arthur Woodward,Marilyn

Binkley,2012-11-12 It is surprising that there is so little research on textbooks given their centrality to teaching and learning in elementary and secondary schools Textbooks have become a focus of political and cultural controversy advocating a multicultural curriculum that has sparked some vigorous protests Research is absent in this debate therefore questions of legitimate knowledge the role of textbooks textbook design policy selection issues and economic issues concerning the marketplace are not part of the current debate Without insights of research on considerate text mentioning illustrations and so forth the current controversy will result in publishers responding to demands for more content not less thus textbooks will become compendia of information that on the surface satisfy everyone This volume demonstrates how research on important issues relative to textbook design can advance our knowledge about what makes textbooks effective learning tools and thus inform policymakers publishers and those involved in textbook selection Representing pure and applied approaches researchers present papers on the quality of writing the role of questions the role of pictures and illustrations and the role of auxiliary materials in the design of effective textbooks The chapters provide insight into research and its application to

textbook design and improvement stimulating others to follow this lead City Record Boston (Mass.),1917 **Research in Education** ,1971 Books Out Loud ,2004 **A Study of Railway Transportation** Association of American Railroads,1942 **Curriculum Compacting** Sally M. Reis,Joseph S. Renzulli,Deborah E. Burns,2021-09-03 Curriculum compacting is one of the most well researched and commonly used ways of differentiating instruction to challenge advanced learners This practical and inexpensive method of differentiating both content and instruction enables classroom teachers to streamline the regular curriculum ensure students mastery of basic skills and provide time for stimulating enrichment and acceleration activities With information on the history and rationale of curriculum compacting as well as successful implementation strategies and multiple case studies the second edition of Curriculum Compacting introduces the strategies that teachers need to understand to implement this differentiation strategy for high potential highly motivated and academically talented and gifted students 2017 NAGC Book of the Year Award Winner
