Sea-Wolves of the Mediterranean Hamilton E. Currey,2008-12-01 **Sea Wolves of the Mediterranean (Jovian Press)** E. Hamilton Currey,2017-06-25 There is in the deeds of men of action an interest which is never aroused by those persons of brains and capacity by whom the world is really ruled The statesman in his cabinet is the god within the machine it is he who directs the acts of nations it is he who moves the fleets and armies as if they were pieces on the chess board to him as a rule is the man of action subordinate obeying his behests Rule and governance are his power both in the abstract and the concrete Seldom in the history of the world do we come across the men who are at one and the same time statesmen and soldiers who taking their destiny in their own hands work it out to the appointed end thereof But as we stray in the by paths of history we meet with some who in their day have influenced not only the age in which they lived themselves but also the destinies of generations yet unborn It would seem incredible that mere pirates such as the Muslim corsairs of the Mediterranean could be included in this category and yet as their story is unfolded we shall see how the Sea wolves rose from the humblest beginnings to trouble the peace of Europe to found for themselves dynasties which endured Uruj Barbarossa Kheyr ed Din Barbarossa Dragut Reis and Occhiali or All Basha were men who in the sixteenth century did much to change the conditions of the times in which they lived it was the time of the Renaissance in Europe a period of splendour in all the arts and sciences These men added nothing to the knowledge of the civilised world as it then existed save and except in one particular which was as Kheyr ed Din explained to Soliman the Magnificent on a certain memorable occasion that he who rules on the sea will rule on the land also In the present day when all the nations and languages sit at the feet of Captain now Rear Admiral Mahan and acclaim his Sea Power series of books it is interesting to find that he was anticipated in the most practical fashion possible by a corsair of the sixteenth century
