Obtain Credit Report Canada:

One Canada Cecil Young, 2004 One Canada is a vision of creating a strong and united Canada out of the dysfunctional federation of 10 provinces and three territories leading to the greatest country on Earth Canada was created to be a strong country nurturing the regions eventually becoming greater than its parts As Canada grew from infancy the provinces the aunts and uncles of Confederation also grew and aspired to become independent countries on their own Since the Centennial in 1967 the young Canada grew exerting the rights given to it by the Constitution The aunts and uncles having designs of nationhood began resenting the young adult forcing it to gradually ceding its control and now is a nearly impotent custodian of Canadian citizenship and almost equal to the aunts and uncles in stature The Canadian Federation has devolved into a state of feudalism where passing the buck is the common denominator between the federal and provincial governments Municipal governments blame the provincial for their ills the provinces then blame the federal government with the buck passing in a vicious circle Inside the vicious circle are the people of Canada bound in red tape while being taxed to death to pay for the ineffectiveness of governments With each provincial government determined to create its own kingdom within Canada One Canada will never be a reality unless a new paradigm of governance is developed for all of Canada The new paradigm is governance at the local municipal level supervised by the national government The Fathers of Confederation clearly defined the powers and responsibilities of the federal Parliament and the provincial legislatures Had the clear division of powers been followed Canada would today be greater than the sum of its regions For the first 100 years of Confederation the provincial governments like aunts and uncles helped nurture Canada through the adolescent years and into nationhood Like the Jamaican Proverb Two bull caan reign in a the same pen the 10 provincial and one federal government have been locking horns together Now the time has come for the provinces to remove their blinders let Canada grow into maturity bringing greater prosperity to its people Two bull caan reign in a the same pen Jamaican patois Two Bulls cannot reign in a herd English There can only be one leader The Meaning **American in Canada, Revised, The** Brian D. R. Arnold, 1961-12-15 As every schoolboy knows Canada is one of the larger trading countries of the world but

from the point of view of balancing her international merchandise trade payments she does not export enough The purpose of this book is to describe not in broad economic terms but in daily practical detail the work of the exporter and importer Pitfalls abound for the unwary trader and Mr Arnold knows them all His book is written about the activities of an export merchant since he unlike his confreres in a larger type of organization deals directly himself with banks brokers suppliers shippers buyers insurance agents freight forwarders and the other agencies serving the exporter and importer Thus the reader acquires an all round understanding of the trader's business world The book is written with admirable directness and clarity with an astute and alert business sense underlying the writing The book will also make useful reading for any student of international trade theory and would be especially helpful to commerce classes and to trainees in business firms of all kinds associated with Canadian trade
