Oxford Latin Course Translations:

The Politics of Translation in the Middle Ages and the Renaissance Renate Blumenfeld-Kosinski, 2001-03-07 The articles in this collection written by medievalists and Renaissance scholars are part of the recent cultural turn in translation studies which approaches translation as an activity that is powerfully affected by its socio political context and the demands of the translating culture The links made between culture politics and translation in these texts highlight the impact of ideological and political forces on cultural transfer in early European thought While the personalities of powerful thinkers and translators such as Erasmus Etienne Dolet Montaigne and Leo Africanus play into these texts historical events and intellectual fashions are equally important moments such as the Hundred Years War whose events were partially recorded in translation by Jean Froissart the Political tussles around the issues of lay readers and rewriters of biblical texts the theological and philosophical shift from scholasticism to Renaissance relativism or European relations with the Muslim world add to the interest of these articles Throughout this volume translation is treated as a form of writing as the production of text and meaning carried out in a certain cultural and political ambiance and for identifiable though not always stated reasons No translation this collection argues is an innocent transparent rendering of the original

Oxford Latin Course M. G. A Companion to the Translation of Classical Epic Richard Armstrong, Alexandra Lianeri, 2025-04-01 The first volume of its kind to integrate trends in Translation Studies with Classical Reception Studies A Companion to the Translation of Classical Epic provides a comprehensive and wide ranging account of key debates and case studies centered the translation of Greek and Latin epics Rather than situating translation studies as a complementary field or an aspect of classical reception the Companion offers a systematic framework for adapting and incorporating translation studies fully into classical studies Its many chapters elaborate how translation is a central element in the epic's reception trajectories across the globe and addresses theoretical and methodological concerns arising from this conjunction The Companion does not just provide a comprehensive overview of the translation theories it covers but also offers fresh insights into theoretical and methodological issues currently at the top of the interdisciplinary agenda of scholars studying the global routes of ancient epic In its sections leading classicists translation theorists classical reception scholars and cultural historians from Europe and North and South America reconfigure questions this research faces today highlighting methods for an integrated approach It explores how this integrated perspective responds to key challenges in the study of the epic's reception emphasizing topics of temporality gender agency community target language politics and material production A special section also features detailed dialogues with active translators such as Emily Wilson Stanley

Lombardo and Susanna Braund who speak extensively and frankly about their work This is a key volume for all students and scholars who want to engage with research reflecting the contemporary agenda in classical reception translation studies and the study of epic in its global literary and cultural routes **Oxford Latin Course** Maurice Balme,M. Translation and the Classic Alexandra Lianeri,Vanda Zajko,2008-08-21 Contemporary translation studies have explored translation not as a means of recovering a source text but as a process of interpretation and production of literary meaning and value Translation and the Classic uses this idea to discuss the relationship between translation and the classic text It proposes a framework in which the classic figures less as an autonomous entity than as the result of the interplay between source text and translation practice and examines the consequences of this hypothesis for questioning established definitions of the classic how does translation mediate the social political and national uses of the classics in the contemporary global context of changing canons and traditions The volume contains a total of eighteen original essays plus an introduction written by scholars working in classics and classical reception translation studies literary theory comparative literature theatre and performance studies history and philosophy and makes a potent contribution to pressing debates in all of these areas **Roman Theories of Translation** Siobhán McElduff,2013-08-29 For all that Cicero is often seen as the father of translation theory his and other Roman comments on translation are often divorced from the complicated environments that produced them The first book length study in English of its kind Roman Theories of Translation Surpassing the Source explores translation as it occurred in Rome and presents a complete culturally integrated discourse on its theories from 240 BCE to the 2nd Century CE Author Siobh n McElduff analyzes Roman methods of translation connects specific events and controversies in the Roman Empire to larger cultural discussions about translation and delves into the histories of various Roman translators examining how their circumstances influenced their experience of translation This book illustrates that as a translating culture a culture reckoning with the consequences of building its own literature upon that of a conquered nation and one with an enormous impact upon the West Rome s translators and their theories of translation deserve to be treated and discussed as a complex and sophisticated phenomenon Roman Theories of Translation enables Roman writers on translation to take their rightful place in the history of translation and translation theory **Gender Issues in Ancient and Reformation Translations of Genesis 1-4** Helen Kraus,2011-10-20 This study looks at the representation of gender issues in Genesis 1 4 in five influential translations from the Hebrew original Each chapter contains a textual analysis section that
