Positive Teaching Kevin Wheldall, Frank Merrett, 2017-09-13 Problems of classroom management and control are a recurring concern for many teachers Disruptive behaviour and inattention hinder effective learning and impose a constant drain upon the teachers emotional resources Continual nagging at children only increases teacher stress what is needed is an effective alternative set of strategies Originally published in 1984 Positive Teaching seeks to meet this need by presenting the behavioural approach to teaching in a clear direct and lucid way By adopting the behavioural approach problem behaviour can be minimised or rapidly nipped in the bud when it does arise While punishment may be used in an attempt to stop almost any kind of behaviour only the appropriate use of positive methods applied contingently immediately and consistently can teach new more adaptive behaviour This is a crucial issue in real teaching and is rarely encountered or even discussed in most teacher education programmes It is the central focus of Positive Teaching This book is for all teachers from the beginning student to experienced head teachers for those teaching in a first school and for those teaching sixth formers for those experiencing difficulties and for those whose authority is already well established The behavioural approach offers practical support to those who are struggling and a rationale for the effective positive strategies of the successful We can all improve our teaching

New Directions in Educational Psychology Nigel Hastings, Josh Schwieso, 2013-10-18 First published in 1987 Teachers throughout the Western world identify motivating pupils and coping with classroom disruption as being among their main concerns The close links between these two crucial aspects of classroom life are only now beginning to be fully understood This book provides a selection of papers nearly all of which have been specially commissioned for this volume on these two closely related topics Whilst many factors both inside and outside of the school contribute to pupils behaviour and motivation in the classroom the articles included in this collection are concerned exclusively with in school factors over which classroom teachers and schools have potentially the greatest influence In this way the volume presents in a form accessible to teachers on initial or in service training courses some of the most useful and interesting recent developments in educational psychology for today's classroom

The Behaviourist in the Classroom Kevin Wheldall, 2012-05-04 In the decade preceding the original publication of this book the discipline of behaviour analysis was becoming increasingly influential in educational circles but many of the practices we now take for granted were still being pioneered This book considers the place of behaviour analysis in education and describes work on behavioural classroom management in British schools Four further chapters consider the behavioural approach to teaching in both primary and secondary schools in terms of tutoring at home and for use with emotionally disturbed children The book concludes with chapters on the role of theory in and an ethical appraisal of behavioural methods

Developing Children's Behaviour in the Classroom Sonia Burnard, 2012-11-12 The authors of this text suggest that teachers need to be able to cope with pupil behaviour before they can even begin to deliver the National Curriculum Often classes contain both statemented children

those officially recognize as having behavioural problems and unstatemented but difficult children Teachers have few strategies to deal with the kind of behaviour that these children present as little if any of their training is allotted to classroom and child management The authors aim to raise awareness of behavioural needs in the classroom and avoid exclusions They do this by encouraging school staff to work together to develop policies which will encourage good behaviour
