Arabic Instruction in Israel Allon Uhlmann, 2017-07-10 In Arabic Instruction in Israel Allon J Uhlmann confronts two conundrums namely the persistently poor level of Arabic proficiency among Jewish Arabic students and teachers and the traumatic alienation of Arab students by university Arabic grammar instruction These are not aberrations but rather direct albeit unintended systemic consequences of the field of Arabic instruction where Jewish students encounter Arabic as a dead hostile language Jewish hegemony devalues native Arabic proficiency and Arab students are locked into a fractured educational trajectory encountering two alienating and mutually unintelligible grammars of Arabic at school and at university By tracing systemic variabilities in cognition and learning Uhlmann exposes hitherto misrecognised dynamics that hinder Arabic instruction in Israel thereby offering new avenues for possible change *Why the West Fears Islam* J.

The OIC, the UN, and Counter-Terrorism Law-Making Katja Samuel, 2014-07-18 The increasingly transnational nature of terrorist activities compels the international community to strengthen the legal framework in which counter terrorism activities should occur at every level including that of intergovernmental organizations This unique timely and carefully researched monograph examines one such important yet generally under researched and poorly understood intergovernmental organization the Organization of Islamic Cooperation OIC formerly the Organization of the Islamic Conference In particular it analyses in depth its institutional counter terrorism law making practice and the relationship between resultant OIC law and comparable UN norms in furtherance of UN Global Counter Terrorism Strategy goals Furthermore it explores two common mis assumptions regarding the OIC namely whether its internal institutional weaknesses mean that its law making practice is inconsequential at the intergovernmental level and whether its self declared Islamic objectives and nature are irrelevant to its institutional practice or are instead reflected within OIC law Where significant normative tensions are discerned between OIC law and UN law the monograph explores not only whether these may be explicable at least in part by the OIC s Islamic nature and objectives but also whether their corresponding institutional legal orders are conflicting or cooperative in nature and the resultant implications of these findings for international counter terrorism law and policy making This monograph is expected to appeal especially to national and intergovernmental counter terrorism practitioners and policy makers as well as to scholars concerned with the interaction between international and Islamic law norms From the Foreword by Professor Ben Saul The University of Sydney Dr Samuels book must be commended as an original and insightful contribution to international legal scholarship on the OIC Islamic law international law and counter terrorism It fills significant gaps in legal knowledge about the vast investment of international

and regional effort that has gone into the global counter terrorism enterprise over many decades and which accelerated markedly after 9 11 The scope of the book is ambitious its subject matter is complex and its sources are many and diverse Dr Samuel has deployed an appropriate theoretical and empirical methodology harnessed an intricate knowledge of the field and brought a balanced judgement to bear to bring these issues to life *Islamicate Societies* Husain Kassim,2012-01-01 The book can be used as a textbook for the courses in the Islamic Studies at the undergraduate and graduate level The unique feature of this book unlike other books on the subject is that it combines and presents a complete picture of the Islamicate nature of the Egyptian and Muslim Indian societies by demonstrating the changes that took place in various aspects under the impact of the West and colonial rule The book would potentially find currency in Muslim countries especially in Egypt and the Indo Pakistan subcontinent Human Rights Culture in Indonesia Max Regus,2021-06-08 Drawing on human rights discourse and a study of the difficulties faced by religious minority groups using the Ahmadiyya minority group as a case study this book presents three interconnected challenges to human rights culture in Indonesia First it presents a normative challenge describing the gap between philosophical and normative principles of human rights on one side and the overall problems and critical issues of human rights at national and local levels on the other Second it considers the political problems in developing and strengthening human rights culture The political challenge addresses the ability or inability of the state to guarantee the rights of certain individuals and minority groups Third it examines the sociological challenge of majority minority group relationships in human rights discourse and practices This book describes the background of human rights in Indonesia and reviews the previous literature on the issue It also presents a comprehensive review of the discourses about human rights and political changes in contemporary Indonesia The analysis focuses on how human rights challenges affect the situation of religious minorities looking in particular at the Ahmadiyya as a minority group that experiences human rights violations such as discrimination persecution and violence The study fills out its treatment of these issues by examining the involvement of actors both from the state and society addressing also the politics of human rights protection

Gender and Equality in Muslim Family Law Lena Larsen, Ziba Mir-Hosseini, Christian Moe, Kari Vogt, 2013-04-30 Dante is one of the towering figures of medieval European literature Yet many riddles and questions about him persist By re-reading Dante with an open mind Barbara Reynolds made remarkable discoveries and unlocked previously hidden secrets about this greatest of Florentine poets A fundamental enigma has tantalised readers of the *Commedia* for seven centuries Who was the leader prophesied by Virgil and Beatrice to bring peace to the world Many attempts have been made to identify him but none

has seemed conclusive until now As well as proposing a solution to the famous prophecies this lively engaging and elegantly written biography contains a provocative new idea in virtually every chapter Dr Reynolds research indicates that Dante smoked cannabis to reach new heights of creativity That Beatrice Dante s great love was not who most scholars think she was That Dante was a talented public speaker who created a quite new form of poetic art holding audiences spellbound Above all Reynolds views Dante as one of the greatest spin doctors of Western civilization His aim was not to preach an interesting parable about punishments for sin and rewards for virtue It was to use poetry to change the politics of the age and unite Europe around the secular authority of an Emperor To promote this idea which dominated his writings from his exile onwards Dante combined it with a dramatic presentation of the Christian belief in Hell Purgatory and Heaven Vividly told in the first person with a colour and immediacy derived from the pop art of street narrators now made to seem respectable by its use of classical predecessors like Virgil this extraordinary journey through the three realms was always profoundly political in intent Dante here comes alive as never before irate opinionated settling scores a man of multifaceted gifts and extraordinary genius whose role as an interpreter of world history makes him more than ever relevant to the new millennium
