psychiatric curriculum and is examined in theory and in clinical exams Similarly neuropsychiatry is also of interest to neurology trainees and it is increasingly recognised that all neurology trainees should have some knowledge and experience in neuropsychiatry Despite this growing interest there is a dearth of neuropsychiatry textbooks specifically geared towards trainees and other clinicians who are not specialist in the field Part of the Oxford Textbooks in Psychiatry series the Oxford Textbook of Neuropsychiatry helps to bridge the gap between general psychiatric textbooks and reference texts in neuropsychiatry Organised into four sections the book covers the basic knowledge and skills relevant to neuropsychiatry the various neuropsychiatric conditions the principles of treatment and perspectives for neuropsychiatry worldwide Chapters have been written by international experts who are leaders in their own fields with the view to taking an evidence based up to date global perspective on neuropsychiatric problems and treatment The book is relevant to trainees in psychiatry neurology neurorehabilitation and also to various allied professionals in neuroscience and mental health It covers core knowledge and skills for practice in all psychiatric disciplines including core knowledge for training in neuropsychiatry The book meets curriculum requirements for various international training programmes and examinations and serves as an essential training text book for all psychiatric and neurology trainees worldwide

Gentrification: A Working-Class Perspective Dr Kirsteen Paton, 2014-10-28 Focusing on the working class experience of gentrification this book re examines the enduring relationship between class and the urban Class is so clearly articulated in the urban from the housing crisis to the London Riots to the evocation of housing estates as the emblem of Broken Britain Gentrification is often presented to a moral and market antidote to such urban ills deeply institutionalised as regeneration and targeted at areas which have suffered from disinvestment or are defined by lack Gentrification is no longer a peripheral neighbourhood process it is policy it is widespread it is everyday Yet comparative to this depth and breadth we know little about what it is like to live with gentrification at the everyday level Sociological studies have focused on lifestyles of the middle classes and the working class experience is either omitted or they are assumed to be victims Hitherto this is all that has been offered This book engages with these issues and reconnects class and the urban through an ethnographically detailed analysis of a neighbourhood undergoing gentrification which historicises class formation critiques policy processes and offers a new sociological insight into gentrification from the perspective of working class residents This ethnography of everyday working class neighbourhood life in the UK serves to challenge denigrated depictions which are used to justify the use of gentrification based restructuring By exploring the relationship between urban processes and working class communities via gentrification it reveals the hidden rewards as well as the hidden injuries of class in post industrial neighbourhoods In doing so it provides a comprehensive sociology of gentrification revealing not only how gentrification leads to the displacement of the working class in physical terms but how it is actively used within urban policy to culturally displace the working class subject and traditional ways of life in an attempt to create the neoliberal subject It reveals the novel forms of displacement this causes

and develops an original typology of displacement from this The book also demonstrates that gentrification is not always a zero sum game for working class residents who at times rework gentrification processes on their own terms for their own gains

New Oxford Textbook of Psychiatry John R. Geddes, Nancy C. Andreasen, Guy M. Goodwin, 2020 Over its two editions The New Oxford Textbook of Psychiatry has come to be regarded as one of the most popular and trusted standard psychiatry texts among psychiatrists and trainees Bringing together 146 chapters from the leading figures in the discipline it presents a comprehensive account of clinical psychiatry with reference to its scientific basis and to the patient's perspective throughout The New Oxford Textbook of Psychiatry Third Edition has been extensively re-structured and streamlined to keep pace with the significant developments that have taken place in the fields of clinical psychiatry and neuroscience since publication of the second edition in 2009 The new edition has been updated throughout to include the most recent versions of the two main classification systems the DSM 5 and the ICD 11 used throughout the world for the diagnosis of mental disorders In the years since publication of the first edition many new and exciting discoveries have occurred in the biological sciences which are having a major impact on how we study and practise psychiatry In addition psychiatry has fostered closer ties with philosophy and these are leading to healthy discussions about how we should diagnose and treat mental illness This new edition recognises these and other developments Throughout accounts of clinical practice are linked to the underlying science and to the evidence for the efficacy of treatments Physical and psychological treatments including psychodynamic approaches are covered in depth The history of psychiatry ethics public health aspects and public attitudes to psychiatry and to patients are all given due attention

Positive Youth Development, Mental Health, and Psychological Well-Being in Diverse Youth Nora Wiium, Laura Ferrer-Wreder, Jennifer E. Lansford, Lene Arnett Jensen, 2023-06-15 In this Research Topic our aim is to examine how personal resources related to competencies skills and self perception as well as environmental contextual and relational features of the social contexts of diverse youth directly or indirectly are important to mental health and psychological well being As previous research on young people has mainly focused on youth s weaknesses rather than their strengths our use of Positive Youth Development PYD in working with culturally diverse youth and their well being in this Research Topic is novel We invite contributions from researchers that were initially presented their papers in a meeting that was held by research partners of the Cross National Project on Positive Youth Development CN PYD and who represent an international and multidisciplinary panel of experts on PYD The CN PYD was initiated in 2014 at the University of Bergen and has an ongoing data collection that involves approximately 10 000 minority and majority youth and emerging adults ages 16 to 29 living in Africa Asia Australia Europe New Zealand and South America CN PYD uses a strengths based approach to the conceptualization of youth as resources and agentic which is in opposition to the view of the developmental period of adolescence as being a period inherently fraught with problems and risks The goal of the cross national project is to assess personal strengths and contextual resources considering how these resources come together to facilitate youth thriving and to document how young people make positive and valued contributions to themselves and others We also advance research on the complex interplay between personal and contextual resources and their connections with risk behaviors and problems in essence taking a perspective of the whole child both in terms of strengths and problems
