Burning the veil Neil MacMaster, 2020-02-28 This electronic version has been made available under a Creative Commons BY NC ND open access license Burning the veil draws upon sources from newly opened archives exploring the emancipation of Muslim women from the veil seclusion and perceived male oppression during the Algerian War of decolonisation The claimed French liberation was contradicted by the violence inflicted on women through rape torture and destruction of villages This book examines the roots of this contradiction in the theory of revolutionary warfare and the attempt to defeat the National Liberation Front by penetrating the Muslim family seen as a bastion of resistance Striking parallels with contemporary Afghanistan and Iraq French emancipation produced a backlash that led to deterioration in the social and political position of Muslim women This analysis of how and why attempts to Westernise Muslim women ended in catastrophe has contemporary relevance and will be important to students and academics engaged in the study of French and colonial history feminism and contemporary Islam

Target: Rabaul Bruce Gamble, 2013-11-15 A history of World War II s Operation Cartwheel a major Allied operation by US Australian and New Zealand forces to take the Japanese base at Rabaul Prior to World War II few Americans had heard of Rabaul a small harbor town in a far off corner of the Pacific But it became a household name after the Japanese captured Rabaul in January 1942 and developed it into their most heavily defended fortress outside the home islands Thereafter Rabaul endured Allied air attacks for a total of forty four months a span unmatched by any other locale during World War II In Target Rabaul respected military historian Bruce Gamble concludes his critically acclaimed trilogy about Japan s most notorious stronghold Picking up where Fortress Rabaul left off Gamble narrates the story of Cartwheel the multiple operation plan that isolated Rabaul through aerial and naval

siege The effort involving all of the armed branches of the United States Australia and New Zealand resulted in some of the heaviest and most dramatic aerial combat of the Pacific war with frequent clashes between hundreds of planes The culmination of an amazing story Target Rabaul profiles the resolve of the Allied and Japanese combatants in the horrific Pacific battleground and provides the turbulent triumphant conclusion to the most comprehensive account of World War II s longest battle Bruce Gamble has done it again An impeccable researcher and a master storyteller with a keen eye for details and characters Gamble presents Target Rabaul a powerful conclusion to his must read trilogy on the battle over Japan s Southwest Pacific stronghold The heart pounding stories of aerial combat read like a thriller and show why he is one of the finest writers working today James Scott author of *The War Below* and *The Attack on the Liberty* *Potato Breeding Methods, II* Bueford Monroe Gile, Dalton Giles Miller, David Alson Kribs, Forrest Rhinehart Immer, Fred Alfred Krantz, Hamilton Paul Traub, Jonas Jergon Christensen, Ralph Ward Dawson, Randolph Milton Brown, 1927 **Allies in Auschwitz** Duncan Little, 2012-07-09 The huge Auschwitz camp in Poland the Third Reich s most gruesome death camp contained not only the infamous concentration camp whose horrors are well documented but also a prisoner of war facility that housed British inmates Situated close enough to the Jewish quarters to smell the stench of burning bodies from the crematoria the POWs were forced to work alongside concentration camp inmates in a Nazi factory Witnesses to daily violence the men survived beatings hard labour and the extreme cold of Polish winters whilst subsisting on meagre rations Their final ordeal was to march hundreds of miles in the depths of winter to secure freedom in the spring of 1945 Based on interviews with some of the few surviving members of E715 Auschwitz this book charts the British captives true story from arriving on cattle trucks through to their eventual departure on foot Haunted by what they had witnessed as young men Brian Bishop Doug Bond and Arthur Gifford England were only able to speak about their experiences decades later when approached during research for this book Few people were interested in these remarkable men in post war Britain and they were left to cope with the trauma of their experiences with little support **Allies in Auschwitz** records an important and forgotten episode of modern history As corroboration of the men s testimony the final chapter includes post war accounts from other British POWs held in E715 Auschwitz based on documents compiled by war crimes investigators for the Nuremburg Trials **Food Plants of British Columbia Indians: Interior peoples** Nancy J. Turner, 1978 Part 1 Coastal peoples **Food and War in Mid-Twentieth-Century East Asia** Katarzyna J. Cwiertka, 2016-04-15 War has been both an agent of destruction and a catalyst for innovation These two at first sight contradictory yet mutually constitutive outcomes of war waging are particularly pronounced in twentieth century Asia While 1945 marked the beginning of peaceful recovery for Europe military conflicts continued to play a critical role in the historical development of this part of the world In essence all wars in twentieth century Asia stemmed from the political vacuum that developed after the fall of the Japanese Wartime Empire intricately connecting one region with another Yet they have had often very diverse consequences shattering the homes of

some and bringing about affluence to others Disarray of war may halt economic activities and render many aspects of life insignificant The need for food however cannot be ignored and the social action that it requires continues in all circumstances This book documents the effects of war on the lives of ordinary people through the investigation of a variety of connections that developed between war waging and the production distribution preparation and consumption of food throughout Asia since the 1930s The topics addressed range from issues at stake at the time of the conflicts such as provisioning the troops and food rationing and food relief for civilians to long term often surprising consequences of war waging and wartime mobilization of resources on the food systems diets and tastes of the societies involved The main argument of this volume is that war has not been a mere disruption but rather a central force in the social and cultural trajectories of twentieth century Asia Due to its close connection with human nourishment and comfort food stands central in the life of the individual On the other hand owing to its connection with profit and power food plays a critical role in the social and economic organization of a society What happens to food and eating is therefore an important index of change a privileged basis for the exploration of historical processes

Handbook ,1942 *The New Zealand Wars and the Victorian Interpretation of Racial Conflict* James Belich,2015-02-16 First published in 1986 James Belich s groundbreaking book and the television series based upon it transformed New Zealanders understanding of New Zealand s great civil war struggles between Maori and Pakeha in the 19th century Revealing the enormous tactical and military skill of Maori and the inability of the Victorian interpretation of racial conflict to acknowledge those qualities Belich s account of the New Zealand Wars offered a very different picture from the one previously given in historical works This bestselling classic of New Zealand history and Belich s larger argument about the impact of historical interpretation resonates today

Lamb,2014-04-11 Now updated with the latest research this pioneering accessible study argues for a more complex view of evolution proposing there is more to heredity than just genes In this revised edition the widely read

Evolution in Four Dimensions Eva Jablonka and Marion Lamb propose that there are four dimensions in heredity These four inheritance systems play a role in evolution which they argue can all provide variations upon which natural selection can act Genetic Epigenetic or non DNA cellular transmission of traits Behavioral Symbolic transmission through language and other forms of symbolic communication Jablonka and Lamb present a richer more complex view of evolution than that offered by the gene based Modern Synthesis arguing that induced and acquired changes also play a role Their lucid and accessible text is accompanied by lively drawings and each chapter ends with a dialogue in which the authors refine their arguments against the vigorous skepticism of the fictional I M for Ipcha Mistabra Aramaic for the opposite conjecture This revised edition reflects the spate of new discoveries in biology since the book was first published offering corrections an updated bibliography and a substantial new chapter on each of the four dimensions with special attention to the epigenetic where there has been an explosion of new research
