O Level June Exams Timetable:

Regulations and Syllabuses for General Education Subjects, May/June 1997-May/June 1998, 1997 **Life in Public Schools (RLE Edu L)** Geoffrey Walford, 2012-05-16 Britain's public schools have a conspicuous role in the country's social system and as a result are the subject of a long standing political debate. The discussion is generally founded on a stereotyped image of what these schools may have been like in the 1950s. This book shows how they were in the late 1980s. It is based on fieldwork in two major public boarding schools which the author conducted over an extended period and draws on interviews, observation and documentary sources to establish a picture of what public school life is actually like for pupils and staff. Since the schools were predominantly male preserves the major part of the book describes the social world and experiences of boys and school masters. An important section of the book however discusses the introduction of girl pupils, the experiences of female teachers and the way schoolmasters' wives tend to be drawn into their husbands' work. Geoffrey Walford's conclusions about life in public schools differ considerably from traditional expectations. At the same time he asks whether there really has been a public school revolution. His book makes an important contribution to our knowledge of public schools, to debates in the sociology of education and to the issues of abolishing or extending the independent sector. **Manitoba School Journal**, 1949 **Kenya Gazette**, 1971-04-16 The Kenya Gazette is an official publication of the government of the Republic of Kenya. It contains notices of new legislation, notices required to be published by law or policy as well as other announcements that are published for general public information. It is published every week usually on Friday with occasional releases of special or supplementary editions within the week. Government Gazette British Honduras, 1966 **Beyond A-levels** Ann Hodgson, Ken Spours, 2003-12-16 Since its introduction over 50 years ago the A level has been a constant subject of debate in schools, HE and government. Sometimes hailed as a gold standard, there is now intense speculation about the future of the A level in particular but also about post 14 qualifications in general. The furore about quality and standards which accompanies each year's A level results has become an annual fixture in the UK press calendar. With the introduction of Curriculum 2000 and an increasing number of calls for Baccalaureate style examinations, vocational qualifications and more, the need for serious debate and change in this field is clear. Based on primary research by two of the leading commentators on the qualifications, this book is a wide ranging and critical view of the fundamental approaches of the education system in Britain today. With government action on this subject looking inevitable, this will be a challenging and important book for anyone interested in this debate. Dictionary of dates, and universal reference.
