The Nature and Development of Decision-making James P. Byrnes, 2013-04-15 Although everyone has goals only some people successfully attain their respective goals on a regular basis With this in mind the author attempts to answer the question of why some people are more successful than others He begins with the assumption that the key to personal success is effective decision making and then utilizes his own theory The Self Regulation Model to explain the

origin and nature of individual differences in decision making competence The author also summarizes a number of existing models of decision making and risk taking This book has two primary goals to provide a comprehensive review of the developmental literature on the decision making skills of children adolescents and adults and to propose a theoretical model of decision making skill that offers a better description of this skill than prior accounts Taken together the literature review and theoretical model help the reader acquire a clear sense of the development of decision making skills as well as reasons for the developmental differences that seem to emerge **College Entrance Guide, 1967** Bernice W. CXC Let's Work with English Hazel Simmons-McDonald, Rod Ellis, 2002 Teaching Literature in High School Thomas M. McCann, John V. Knapp, 2021-12-15 In looking for an approach to teaching literature in high school teachers largely fall back on the methods that they had experienced as students These practices often involve a teacher assigning a complex work of literature and then assessing students reading through in class recitations or quizzes Teachers typically dominate the discourse and sometimes take charge of the task by reading aloud whole swathes of texts to their students We know from our own experience as teachers supervisors of teachers and student teachers and researchers in the field that students are often bored with these approaches and teachers are frequently frustrated with learners unenthusiastic responses to the teachers favorite works of literature There has to be a better way This book offers approaches to engage students in productive procedures for reading complex texts and provides sample activities to allow learners to practice those procedures
