Baird Callicott, 2014-01-06 Bringing together ecology evolutionary moral psychology and environmental ethics J Baird Callicott counters the narrative of blame and despair that prevails in contemporary discussions of climate ethics and offers a fresh more optimistic approach Whereas other environmental ethicists limit themselves to what Callicott calls Rational Individualism in discussing the problem of climate change only to conclude that essentially there is little hope that anything will be done in the face of its perfect moral storm in Stephen Gardiner's words Callicott refuses to accept this view Instead he encourages us to look to the Earth itself and consider the crisis on grander spatial and temporal scales as we have failed to in the past Callicott supports this theory by exploring and enhancing Aldo Leopold's faint sketch of an Earth ethic in *Some Fundamentals of Conservation* in the Southwest a seldom studied text from the early days of environmental ethics that was written in 1923 but not published until 1979 after the environmental movement gathered strength **Scientific and Technical Books and Serials in Print**, 1989 *God and the History of the Universe* Jarvis Streeter, 2016-03-22 The popular belief that a scientific understanding of reality is incompatible with a Christian one is simply wrong Some Christian understandings of reality do conflict with some scientific understandings But a thoroughly rational Christian understanding of the origin and history of the universe will be informed by the best scientific theories and the facts founded on them This book weaves a narrative of the origin and history of the universe from the perspective of contemporary science with a Christian understanding of God and of God's role in the origin and history of the universe At the center of this integrated narrative is the view that God who is pure unbounded Love is Creator the zest for life in the universe comes from God and God is the source of Truth Beauty and Goodness in the

universe God is amazed and delighted at what God and the world has created God is saddened by ways creatures have fallen short of pure unbounded Love Truth Beauty and Goodness and God's pure unbounded Love keeps on trying to persuade all creatures toward Truth Beauty and Goodness      **March Onto Land** Thom Holmes, 2008 Explores early prehistoric life from the Silurian period through the Middle Triassic epoch including tetrapods amphibians reptiles and land plants
