Decentralisation and Regional Development Eva Dick, Karin Gaesing, Daniel Inkoom, Teodoro Kausel, 2016-06-15 This book analyzes decentralisation regional development paths and success factors in different governance sectors in Ghana the Philippines Tanzania and Chile and discuss overarching aspects of relevance

Decentralisation which refers to the delegation of administrative responsibilities political decision making and fiscal powers to lower levels of government is now considered one of the most efficient engines of development In Sub Saharan Africa decentralised states have made more progress in reducing poverty than those states with lower decentralisation scores But in many countries decentralisation is still considered a work in progress with unsatisfactory results From a spatial point of view the link between decentralisation and regional and district development is particularly interesting Both in the North and in the South regional or district development is seen as holding the potential for advancing social and economic development and even more so in decentralised political settings Space based networks at the regional or district level are considered instrumental for responding to locally specific challenges e g in areas lagging behind economically *Physico-mechanical properties and treatment technology of hazardous geomaterials* Bing Bai,Riyadh Al-Raoush,Wei Hu,Xianze Cui,2023-04-14

craters are concerned 10% of the world's total are located in eastern Canada including some of the largest and most complex landforms. They are preserved preferentially in the ancient Shield terrain of Quebec. Finally, the three million km² of permafrost controlled relief in eastern Canada serves as a reminder of the vulnerability of eastern Canada's landscapes to climate change. Effects of warming are expressed through thawing of the permafrost, disruption of transportation corridors and urban construction problems, ever present geomorphic hazards.

Before Canada Allan Greer, 2024-07-12 Long before Confederation created a nation state in northern North America, Indigenous people were establishing vast networks and trade routes. Volcanic eruptions pushed the ancestors of the Dene to undertake a trek from the present day Northwest Territories to Arizona. Inuit migrated across the Arctic from Siberia reaching Southern Labrador where they met Basque fishers from northern Spain. As early as the fifteenth century, fishing ships from western Europe were coming to Newfoundland for cod, creating the greatest transatlantic maritime link in the early modern world. Later, fur traders would take capitalism across the continent using cheap rum to lubricate their transactions. The contributors to *Before Canada* reveal the latest findings of archaeological and historical research on this fascinating period. Along the way, they reframe the story of the Canadian past, extending its limits across time and space and challenging us to reconsider our assumptions about this supposedly young country. Innovative and multidisciplinary, *Before Canada* inspires interest in the deep history of northern North America.

Domestic Violence in International Context Diana Scharff Peterson, Julie Schroeder, 2016-12-19 Domestic violence does not discriminate and is prevalent throughout the world regardless of race, age, or socio-economic status. Why then do reactions and responses differ so widely throughout the world? While some countries work diligently to address the matter through prevention and training, others take a hands-off approach in their response. This book is one of the first to investigate domestic violence on a global scale and provides best practices gleaned from various countries around the world to paint a detailed picture of how police response to domestic violence is currently being conducted and provide training bodies with up-to-date information to enhance current curricula. *Domestic Violence in International Context* brings together expert scholars native to twelve different countries to examine the history and scope of domestic violence and how it is being addressed, repressed, or ignored in their thirteen respective countries. Their specialised knowledge and unique data come together to create a series of snapshots that will guide nations, societies, and communities worldwide in formulating effective strategies to prevent, intervene, and combat this epidemic and examine partnerships and programmes already in place. This book is essential reading for practitioners, policy makers, and human rights organisations, as well as students and scholars of criminology, social work, sociology, and law.
