Afghanistan experience Rather than byproducts of a failed contemporary system argues Bradford drugs especially opium were critical components in the formation and failure of the Afghan state In this history of drugs and drug control in Afghanistan Bradford shows us how the country moved from licit supply of the global opium trade to one of the major suppliers of hashish and opium through changes in drug control policy shaped largely by the outside force of the United States Poppies Politics and Power breaks the conventional modes of national histories that fail to fully encapsulate the global nature of the drug trade By providing a global history of opium within the borders of Afghanistan Bradford demonstrates that the country s drug trade and the government s position on that trade were shaped by the global illegal market and international efforts to suppress it By weaving together this global history of the drug trade and drug policy with the formation of the Afghan state and issues within Afghan political culture Bradford completely recasts the current Afghan and global drug trade
