Validating Technological Innovation David Coniam, Peter Falvey, 2016-04-02 This book discusses Hong Kong's use of onscreen marking OSM in public examinations. Given that Hong Kong leads the way in OSM innovation, this book has arisen from a recognised need to provide a comprehensive coherent account of the findings of various separate but linked validation studies of onscreen public examinations in Hong Kong. The authors discuss their experience of the validation process, demonstrating how high stakes innovation should be fully validated by a series of research studies in order to satisfy key stakeholders.

A Geography of Infection Matthew Smallman-Raynor, Matthew R. Smallman-Raynor, Andrew David Cliff, J. Keith Ord, Peter Haggett, 2022 Despite advances in modern medicine the power of plagues to terrify, disrupt and bring huge swings in morbidity and mortality in their wake remains potent. *A Geography of Infection* explores the spatial mechanisms by which infectious diseases such as measles and influenza can develop into epidemics and pandemics.

Land Abandoned to the Sea Stuart Oliver, 2021-04-08 Significant changes are affecting coastlines around the world due to economic pressures and climate change. This book addresses the social, cultural and political context of the process of managed coastal realignment: the strategic abandonment of the coast as a means of coping with these changes. With a specific focus on the Blackwater Estuary in Essex, Stuart Oliver analyses the cultural and social implications of managed retreat and proposes managed realignment as a practical way in which society can rethink itself, addressing the new realities of the environment and a move towards developing a more sustainable relationship with it.

The New Oxford Handbook of Economic Geography Gordon L. Clark, Maryann P. Feldman, Meric S. Gertler, Dariusz Wójcik, 2018 The first fifteen years of the 21st century have thrown into sharp relief the challenges of growth, equity, stability and sustainability facing the world economy. In addition, they have exposed the inadequacies of mainstream economics in providing answers to these challenges. This volume gathers over 50 leading scholars from around the world to offer a forward looking perspective of economic geography to understanding the various building blocks, relationships and trajectories in the world economy. The perspective is at the same time grounded in theory and in the experiences of particular places. Reviewing state of the art of economic geography, setting agendas and with illustrations and empirical evidence from all over the world.

the book should be an essential reference for students researchers as well as strategists and policy makers Building on the success of the first edition this volume offers a radically revised updated and broader approach to economic geography With the backdrop of the global financial crisis finance is investigated in chapters on financial stability financial innovation global financial networks the global map of savings and investments and financialization Environmental challenges are addressed in chapters on resource economies vulnerability of regions to climate change carbon markets and energy transitions Distribution and consumption feature alongside more established topics on the firm innovation and work The handbook also captures the theoretical and conceptual innovations of the last fifteen years including evolutionary economic geography and the global production networks approach Addressing the dangers of inequality instability and environmental crisis head on the volume concludes with strategies for growth and new ways of envisioning the spatiality of economy for the future

The Political Economy of Low Carbon Transformation Harold Wilhite, 2016-03-10 Deep reductions in energy use and carbon emissions will not be possible within political economies that are driven by the capitalist imperatives of growth commodification and individualization As such it has now become necessary to understand the relationship between capitalism and the emergence of high energy habits Using the examples of home energy transport and food The Political Economy of Low Carbon Transformation articulates the relationship between the politics of economic expansion and the formation of high energy habits at the level of family and household The book elaborates a theory of habit and how it can contribute to this relationship It critiques mainstream green economy and green energy prescriptions for low carbon transformation that take economic growth for granted and ignore habits formed in a material world designed and built for high energy use The book explores the growing number of communities around the world that are engaged in collaborative efforts to reform their community and household habits in ways that are less environmentally intrusive It assesses their potential to make an impact on national and urban low carbon political agendas The book is aimed at a large and growing interdisciplinary audience interested in the relationship between political economy consumption and sustainability

Not What The Bus Promised Tamara Hervey, Ivanka Antova, Mark L Flear, Matthew Wood, 2023-10-05 What does the UK's exit from the EU mean for health and the NHS This book explains the legal and practical implications of Brexit on the NHS its staffing especially on the island of Ireland medicines medical devices and equipment and biomedical research It considers the UK's post Brexit trade agreements and what they mean for health and discusses the effects of the COVID 19 pandemic on post Brexit health law To put the legal analysis in context the book draws on over 400 conversations the authors had with people in the north of England and Northern Ireland interviews with over 40 health policy stakeholders details of a film about their research made with ShoutOut UK the authors work with Parliaments and governments across the UK and their collaborations with key actors like the NHS Confederation the British Medical Association and Cancer Research UK The book shows that the language people use to talk about hoped for legitimate post Brexit health governance suggests a great deal of
