Dogwood Andrew Wiest, 2025-05-08 This is an unsparing account of the sharp end of war written by one of the finest military historians of his generation Andrew Wiest author of the bestselling *Boys of 67* traces the experience of the 150th Combat Engineers of the Mississippi National Guard in their 2005 tour of duty in Iraq centered on the forward operating base Dogwood Comprising youth hoping to attain a way out of grinding poverty women seeking to break barriers and patriots answering their nation's call after 9/11 the 150th represented nearly all of what America had to offer in 2005 Amid the transformation of the US military in the 21st century no longer were they destined to be weekend warriors tasked mainly with local disaster relief The new Guard was a sharp weapon of war Soldiers grew up in the same communities played sports and served together As *Dogwood* reveals this provides a singular advantage but also intensifies loss Defying poor equipment lack of specialist training and heart breaking losses the 150th endured combat They also implemented their own homespun counterinsurgency policy that turned an insurgency hotbed into a thriving community one of the war's few success stories But all was forgotten Set within the context of a changing military an evolving strategic situation and an unpopular war *Dogwood* is an unflinching history which lays bare the harsh reality of combat through countless first hand accounts

Enduring Battle Christopher H. Hamner, 2011-04-07 Throughout history battlefields have placed a soldier's instinct for self preservation in direct opposition to the army's insistence that he do his duty and put himself in harm's way *Enduring Battle* looks beyond advances in weaponry to examine changes in warfare at the very personal level Drawing on the combat experiences of American soldiers in three widely separated wars the Revolution the Civil War and World War II Christopher Hamner explores why soldiers fight in the face of terrifying lethal threats and how they manage to suppress their fears stifle their instincts and marshal the will to kill other humans Hamner contrasts the experience of infantry combat on the ground in the eighteenth and nineteenth centuries when soldiers marched shoulder to shoulder in linear formations

with the experiences of dispersed infantrymen of the mid twentieth century Earlier battlefields prized soldiers who could behave as stoic automatons the modern dispersed battlefield required soldiers who could act autonomously As the range and power of weapons removed enemies from view combat became increasingly depersonalized and soldiers became more isolated from their comrades and even imagined that the enemy was targeting them personally What s more battles lengthened so that exchanges of fire that lasted an hour during the Revolutionary War became round the clock by World War II The book s coverage of training and leadership explores the ways in which military systems have attempted to deal with the problem of soldiers fear in battle and contrasts leadership in the linear and dispersed tactical systems Chapters on weapons and comradeship then discuss soldiers experiences in battle and the relationships that informed and shaped those experiences Hamner highlights the ways in which the band of brothers phenomenon functioned differently in the three wars and shows that training conditioning leadership and other factors affect behavior much more than political ideology He also shows how techniques to motivate soldiers evolved from the linear system s penalties for not fighting to modern efforts to convince soldiers that participation in combat would actually maximize their own chances for survival Examining why soldiers continue to fight when their strong instinct is to flee Enduring Battle challenges long standing notions that high ideals and small unit bonds provide sufficient explanation for their behavior Offering an innovative way to analyze the factors that enable soldiers to face the prospect of death or debilitating wounds it expands our understanding of the evolving nature of warfare and its warriors
