2014 International Conference on Artificial Intelligence and Software Engineering(AISE2014) S. K. Chen, Altair Engineering Inc., California, USA,Y. H. Chang, Chihlee Institute of Technology, Taiwan,2014-02-06 2014 International Conference on Artificial Intelligence and Software Engineering AISE2014 aims to provide a forum for accessing to the most up to date and authoritative knowledge from both Artificial Intelligence and Software Engineering AISE2014 features unique mixed topics of AI Algorithms Data Mining Knowledge based Systems Software Process and so on The goal of this conference is to bring researchers engineers and students to the areas of Artificial Intelligence and Software Engineering to share experiences and original research contributions on those topics Researchers and practitioners are invited to submit their contributions to AISE2014 **Rock • Paper • Pixels** Patrick Aievoli,2025-01-20 The purpose of this book is to avail faculty and students of the many different innovations events effects and back stories equated with the advent of this new era of communications and its impact on our world At our core we are a species that needs to communicate and to find a way to properly represent those messages Since the beginning of recorded history mankind has always attempted to communicate and to keep track of its endeavors and accomplishments Now by using interaction design and modern digital media it has become possible to present our story through many current and evocative platforms As each generation comes of age this new method is being utilized in all areas of their communication choices These new generations desire their communication at a different rate than its predecessors They want their information Internet ready and interactive They are involved in the immediate and that choice is not going away Interactive media is here to stay and has new rules and new effects It is changing our economies our societies and especially us as individuals The main goal of this book is to help you see how it started where it is going and how to be on the right side of this transformation How to take your first steps in that new direction and how to understand the effects of this new form of communication while being aware of its abilities and its dangers As a friend once said no matter how thin you slice it there are always two sides **Handmade Pixels** Jesper Juul,2019-10-08 An investigation of independent video games creative personal strange and experimental and their claims to handcrafted authenticity in a purely digital medium Video games are often dismissed as mere entertainment products created by faceless corporations The last twenty years however have seen the rise of independent or indie video games a wave of small cheaply developed experimental and personal video games that react against mainstream video game development and culture In Handmade Pixels Jesper Juul examine the paradoxical claims of developers players and festivals that portray independent games as unique and hand crafted objects in a globally distributed digital medium Juul explains that independent video games are presented not as mass market products but as cultural works created by people and are promoted as authentic alternatives to mainstream games Writing as a game player scholar developer and educator Juul tells

the story of how independent games creative personal strange and experimental became a historical movement that borrowed the term independent from film and music while finding its own kind of independence Juul describes how the visual style of independent games signals their authenticity often by referring to older video games or analog visual styles He shows how developers use strategies for creating games with financial aesthetic and cultural independence discusses the aesthetic innovations of walking simulator games and explains the controversies over what is and what isn t a game Juul offers examples from independent games ranging from Dys4ia to Firewatch the text is richly illustrated with many color images
